IN BATTLE WITH BOXERS

Little Band of British Marines Engage an Army.

TERRIFIC RUNNING FIGHT

Between Twenty and Thirty of the Rebels Slain It Was Sword and Spear Against Guns.

London, June 13 (4:40 a. m.)—Sixteen British marines reconnoitering in advance of the international column marching to Pekin, fought and chased Boxers Monday, killing twenty or thirty. A correspondent accompanying column, in a dispatch dated Tien Tsin, June 12, via Shanghai, June 13, 7 a. m., says:

While the working parties, accompanied by a patrol of sixteen British marines, commanded by Major Johnson, were repairing the line Monday afternoon eight miles beyond Lofa, they encountered small parties of Boxers who were destroying the line. The Boxers retreated away from the advancing marines and apparently dispersed into the country, leaving the rails moved and the sleepers burning.

The marines, when two miles in advance of the first train near Lang Fang, suddenly perceived Boxers streaming from a village on the left. It was estimated that they numbered 2,000, some of them being mounted and they were trying to get between the marines and the train. Most of them were armed with spears and swords. A few had firearms, which they handled awkwardly.

Fought on the Run.

The marines, retreating, keeping up a running fight for over a mile, and killing between twenty and thirty Boxers.

The Boxers pursued the British for a long distance. Then, seeing more marines from the train coming to their assistance, Major Johnson's sixteen halted and poured a heavy, continuous fire into the crowd, driving them across in front of the reinforcing bluejackets and punished the Boxers severely with maxims. The Boxers fled and the Britons followed up their success, clearing out two villages. The total loss of the Boxers is estimated at forty killed and wounded. Seven of their wounded were attended by British surgeons. The latter's loss was nothing.

Unless their loss causes the Boxers to lose heart, the international column will have much trouble before it reaches Pekin. The railway is so much demolished the column covered only thirty miles Sunday and [illegible]

[illegible] is reason to fear that the road bed is more badly damaged.

Evidences of General Nieh's operations were found in headless bodies. The whole country presents a desolate appearance, entire villages having been deserted. The expedition numbers 2,044, as follows:

British 915; German, 250; Russian, 40; French, 128; Americans, 104; Japanese, 52; Italians, 40, and Austrians, 25.

Boxers Slay a Japanese.

The Times in an extra edition, publishes the following dispatch from Pekin, dated June 12, 2 p. m.:

The chancellor of the Japanese legation, Sugiyama Akira, while proceeding to the end unprotected on official duty, was brutally murdered by soldiers of Tung Fuh Siang, the favorite bodyguard of the empress, at Manigate railroad station yesterday. The foreign reinforcements are daily expected. The most isolated position at Pekin, the destruction of foreign property in the city and the insecurity of life are mostly attributable to treachery of the Chinese government."

The correspondents at Tien Tsin, Shanghai and other treaty ports throw side lights upon the situation. According to one dispatch from Tien Tsin it is understood there that the foreign ministers will insist, as soon as fresh bayonets arrive at Pekin, upon the removal of the anti-foreign advisers of the dowager empress and the substitution for them of councillors friendly to western civilization.

The English at Shanghai are afraid that Great Britain has been deceived and that the whole business will have to be gone through again. Russia's aims, they argue, are not understood, and Russia and France are apparently not working in the same spirit as the other powers. Five thousand Russians are ready to land at Taku.

Japan Getting Ready.

A telegram from Yokohama dated Tuesday evening says that the Japanese government has ordered four more warships to proceed to Taku and 4,000 men of all arms are under orders to be in immediate readiness for embarkation.

The dispatch says the Japanese government "trusts the powers will not misconstrue this action."

The Japanese press is urging vigorous action. The Shanghai correspondent of the Times, telegraphing Tuesday, says:

"The Japanese minister is pressing for recognition of a Japanese sphere of influence, to include the provinces of Che, Kiang, Fo Kien and Kiang Si."

The Hong Kong correspondent of the Times wiring yesterday says:

"The admiralty have engaged a transport to take 500 troops to Tang Ku. The sailing date has not been fixed.

"The only bit of information which the British war office has made public regarding the situation since it became important was the admission yesterday that the summer residence of the British minister in Pekin had been burned. Considerable contracts for the Chinese have been placed with the Birmingham arms factories, though whether for the Chinese government or for the Boxers is not disclosed.

Insurance rates for Tien Tsin have been raised to 5s per 100 pounds.

A dispatch from Tien Tsin dated June 12 says: One hundred and sixty-three British landed last evening. An additional 20 British have been sent to Fong Shan.

"This morning a special train left Tien Tsin for Yang Tsun to bring General Nieh to consult with the viceroy.

"Telegraphic communication with Pekin is still interrupted."

The Russian warships Petropavlovski and Romiloff are at Taku bar and Russian torpedo boats "13" and "107" are in the river Taku. Want of transport prevents the Russians from landing troops. The Russians are very active here today. It is reported that General Fung Fah Siang, with many thousand troops, is at Feng Tai.

The latest news from Pao Tung Fu is that the Boxers, 6,000 strong, are attacking the Catholic convent there. The situation is critical and the officials are evidently inactive.

The United States warships Nashville and Monacacy are reported at Taku.

AMERICANS AT CHIN KIANG WANT PROTECTION

Washington, June 12.—The following has been received at the state department today:

Chin Kiang, June 12. Secretary of State: Large numbers natives organized secret society, halted here. People very apprehensive. No protection. Want cruiser. Martin."

Mr. Martin is the consul at Chin Kiang, and his telegram is the first news received here to indicate the spread of the Boxer agitation in that section of China. Chin Kiang is one of the most important treaty ports in China. It is located on the Yangtse Kiang, a little over 100 miles above the point where the Wo-Sung enters, and is about 125 miles from Shanghai. At that point the United States gunboats Wheeling and Castine are now lying, undergoing some repairs. The extent of these is not known at the navy department, but assuming that they are not more extensive than usual, it is said that one or both of the vessels might be dispatched to Chin Kiang in the course of a day or two. However, up to this moment no orders have gone forward to either of the vessels or to Admiral Remey.

There is an intimation at the state department that the consul at Chin Kiang has exaggerated the danger of the situation and that the mere halting [illegible] of a number of boxers is not evidence that they have any hostile intentions against the American consulate. It is probable, therefore, that in the absence of more serious develop-

ments, no ship will be sent to Chin Kiang. The town is nearly 300 miles southeast of Pekin, but, fortunately, is much more accessible to foreign warships, and vessels drawing [illegible] feet of water can work up the river 25 feet of water can work up the river at that point. One of the dispatches received at the state department this morning was from another consular officer in China, but it was stated that it conveyed no news of importance and its contents were not made public.

The pressure upon the president and department of state from the missionary interests is increasing every moment. It is believed expeditions will be sent out by the United States government to secure the safety of missions in outlying Chinese towns and the intimation is conveyed that troops might be employed for that purpose. The state department, however, has not altered its position, and Admiral Kempff is still confined to his instruction to protect American lives and the American legation and the consulates.

Mr. Conger has likewise been laid under the same injunction but nothing has been added to his instruction that would specifically direct him to avert danger the safety of the legation at Pekin by sending the guards into the southern country in the effort to reach the scattered missions. If this task is to be undertaken by him something more than the United force of United States marines now [illegible] at Taku, Pekin or even Manila will be required and the administration is not disposed to go beyond that limit.

CABINET AT WASHINGTON DISCUSS THE SITUATION

Washington, June 12.—The cabinet meeting today was largely devoted to a discussion of the Chinese situation. Secretary Hay had before the cabinet dispatches from Minister Conger which indicated that the situation is very critical. Secretary Long had no late dispatches.

The steps that have been taken to reinforce Admiral Kempff were gone over and it was decided to stand by the policy which has been entered upon of pushing measures for the protection of the lives and property of American citizens and of acting independently as far as possible. It may be that in the accomplishment of this result the forces of the powers will have to act in union for the protection of all foreign residents in the disturbed districts, but this will be the extent of the American activity. It is to be confined solely to the protection and safeguarding of our own interests and those of our citizens.

The Chinese government will be looked under the general laws of the comity of nations to restore order and to make such reparation as is proper. From all political schemes, in which many of the powers may become involved, the United States is to hold along. This is the general policy hereafore outlined and it will be adhered to.

The navy department has cabled directly to Rear Admiral Kempff at Taku to inform him that marine reinforcements have been ordered to him from Manila. Thus the admiral will be in a position to act with greater freedom in sending relief expeditions to Pekin or elsewhere, knowing that he will soon be able to replace the marines diverted from Taku.

ALL THE NEWS

Fair today in western showers in eastern part of state.

Silver, 60; lead, $3.90; copper, $16.50.

New York stocks stagnant, speculation seemingly awaiting development of Chinese situation; money easy at 1½@2; government bonds easy, railroad bonds weak.

Chicago wheat market continued active, pushed to 74¾ on big business, July closing at 73; provisions quiet and dull.

STATE

Governor Thomas declines to remove Warden Hoyt of the Canon City prison in compliance with recommendation of the penitentiary commissioners.

Near Golden Peter Brown was killed and William Cameron, John McNenency and Archie Hamilton were severely injured by a cave-in in a stone quarry.

John McKenna, who was beaten by Lucien M. Cunningham, June 4th, is dead at Denver and Cunningham is now charged with murder.

The First Idaho regiment has arrived at Denver and will take the place of the Sixth regiment at Fort Logan; the Sixth goes to Manila.

Footpads made an attempt to hold up a gambling house at Rico; a posse is in pursuit.

City council of Cripple Creek continued the matter of right of way for the District railroad to Colorado Springs for one week.

I. D. Stein was elected supervising architect for the new city hall at Victor.

Michael Maloney, a bartender at Victor, was stabbed by George Hayes, who objected to the manner Maloney treated some loafers.

Cripple Creek will refuse to pay the water bonds of 1899.

Two "sure thing" men reaped a harvest of dollars at Goldfield.

SITUATION IN CHINA

A detail of British marines fought 2,000 Boxers Monday, killing twenty or thirty of them.

The chancellor of the Japanese legation at Pekin is murdered.

Additional British troops have been landed in China; Russians continue active at Tien Tsin and situation is hourly becoming more critical.

President McKinley's cabinet discussed the situation.

Natives at Ching Kiang are organized and American consul has cabled for a [illegible]

SOUTH AFRICAN WAR

Boer generals claim to have been offered handsome annuities to lay down their arms.

Unconfirmed rumors of British reverses at Bloemfontein have reached London, via Lourenzo Marquez.

Laing's Nek and Majuba have been evacuated by the Boer forces.

FOREIGN

President Errazuriz of Chile had a third and dangerous attack of paralysis yesterday. His death is simply a question of a short time. The executive functions have been transferred to Prime Minister Albano.

Out of a total of seventy-five plague cases since the outbreak of the disease at Cairo, thirty-four of them have resulted fatally.

[illegible] has renewed [illegible] met with another serious reverse in the Gold Coast war.

GENERAL

Admiral Schley, in a letter to a personal friend, says under no circumstances would he be a candidate for the vice presidency.

Nels and Andrew Frankgen were killed near Salina, Utah, yesterday by the overturning of a spring wagon.

Charles Hitchcock, Jr., 1899, of New York City, won the championship in golf, at Yale, by defeating Thomas L. Cheney, 1901, of South Manchester, Conn.

A cavein in the 500-foot level of the United Verde mine, Jerome, Ariz., caused the death of John Gray of Salt Lake City, Utah, and Jos Terrene. James Mikel was badly crushed about the legs and received internal injuries which will probably cause death. Robert Northers was badly injured.

[illegible] was defeated by the contestants in the lady golf championship in New York state yesterday.

Chauncey M. Hawkins, a jeweler, formerly of New York, committed suicide at San Francisco, by taking morphine, after vainly trying to obtain employment in that city. His wife resides in Los Angeles.

Mrs. George H. Boker, widow of the poet and ex-minister to Russia, is dead at her home in Philadelphia.

Between February 1 and April 25, this year, 320,000 bales of hemp were received at the port of Manila, P. I., according to the report of Consul Otis.

At Livingston, Polk county, Texas, Buck Pounds and Douglas Hudson fought a duel to the death with pistols. Both died in their tracks.

National Republican committee will discuss old question of representation in the convention today.

President McKinley has issued a proclamation formally announcing the establishment of reciprocity agreement with Portugal.

ON TO PHILADELPHIA.

California Delegates to the National Convention on the Way.

San Francisco, June 12.—The members of the Republican delegation to the national convention, who have not already gone east, started for Philadelphia today. They expect to arrive at their destination Saturday night, stopping at Chicago en route. The party occupied two Pullmans, which were handsomely decorated within and without, handsome banners on the sides of the coaches proclaiming the identity of the party. In Philadelphia the Californians will make their headquarters at the Colonade.

Reno, Nev., June 12.—The Nevada Republican delegation to the national convention in Philadelphia [illegible] departed for the scene of action. The delegates went uninstructed as to the vice presidency, and it is believed here by prominent Republicans that they will support Irving M. Scott, or any other Pacific coast man who is put forward for the vice presidency.

NOT IN RUNNING.

Governor Roosevelt Will Not Accept Vice Presidential Nomination.

Albany, N. Y., June 12.—Governor Roosevelt to-day reiterated his former statement relative to accepting the vice presidential nomination on the Republican national ticket, which he has absolutely declined.

"I have nothing to add," said the governor, "to what I have already said. My decision is irrevocable."

TO SUCCEED HIMSELF.

Providence, R. I., June 12.—The general assembly today, by a separate ballot, reelected George Peabody Wetmore, the Republican incumbent, as senator.

The house voted today to submit to the people an amendment to the constitution providing for the abolishment of Newport as one of the state capitals.

ADVANCE OF BRITISH

Forces of Roberts Closing Up Gap Between Armies.

GOLD TO STOP BLOODSHED

Boers Claim to Have Been Offered Big Money to Lay Down Their Arms--Dispatches from Buller.

London, June 13, 2:30 a. m.—Two pieces of news, encouraging to the British in the official dispatches are that the broken communications of Lord Roberts are in a fair way to be mended by the forces moving northward and southward and driving off the roving commandoes, and that Sir Redvers Buller is at last master of Laing's Nek.

Telegraphic communication with Lord Roberts is expected to be restored today, as a dispatch from Bloemfontein dated yesterday says that the railway is in British possession again and the work of repairing the line is going on rapidly with abundant material warehoused at Bloemfontein.

From the subjoined telegram it would appear that General Hunter was in command of the troops referred to by General Kelly-Kenny in his dispatch from Bloemfontein, June 12:

"General Hunter is coming up rapidly, from the northwest, having severely defeated a large commando of Boers who had destroyed two miles of railway north of Kroonstadt."

To Cheer the Boers.

The Boer government [illegible] news cheering to its sympathizers. The following bulletin, the Boer version of the disaster to the Derbyshires, was posted by President Kruger at Machadodorp:

"On June 7 four divisions of burghers commanded by Steenkamp Frieman, Duplay, Pourie and Hel, attacked the British at Roodeval, killed 200 and took 700 prisoners and captured immense stores of food and ammunition, a maxim gun and 1,000 lyddite shells. [illegible] by the Boer farmers and the rest was burned. The English mail was taken. The burghers attacked from the open veldt and gave evidence of unprecedented bravery."

General Dewet was also fighting on June 2, whether at Roodeval or elsewhere is not clear, but the Boer war office gives it out that he captured 3,000 suits of clothing, blankets, gloves, boots, etc., being unable to carry them with him in his rapid sweep through [illegible] yesterday to the Transvaal war office, he burned the whole mass. General Dewet has also reported that he put 1,000 British out of action and destroyed property valued at £100,000. As Lord Methuen is officially described as fighting on June 2, it is possible that he was engaging General Dewet.

Offers of Money Reported.

According to a dispatch to the Daily Express from Machadodorp, dated June 10, via Lourenzo Marquez, those around President Kruger say that Louis Botha and Delarey have been offered indirectly £10,000 a year to lay down their arms, and President Kruger expects the same offer to be made to himself, President Steyn and Dewet.

President Kruger believes that the British make these offers to close the war on the principle that it would cost less than to fight it out.

A dispatch from Lourenzo Marques says that 1,500 Boers are reported to be retiring on Middleburg from various quarters and that after weeding out the faint-hearted, 20,000 men are still left.

General Buller was unable on Monday to follow up the Boers from lack of cavalry as well as water. The dispatches describe him as fighting a spirited advance over a rugged field, under prolonged rifle fire. The Boers had two guns which they got away. Few dead or wounded Boers were found. It seems probable that the major portion of the Boers had withdrawn before the advance began.

Lord Methuen, General Rundle and General Brabant are reported to have 3,000 men and 50 guns engaged in inclosing the Boers in the eastern portion of Orange River colony.

The war office casualty returns up to June 9 aggregate 23,664, besides 792 officers and 12,355 men sent home as invalids, but not including the sick in South African hospitals.

At Laings Nek and Majuba.

The war office has issued the following from Buller to the secretary of war:

"Joubert's Farm, June 12, 5:12 p. m.—Encamped four miles north of Volksrust. Laing's Nek and Majuba were completely evacuated by the Boers last night. General Clery from Ingogo is now coming over the Nek. I have had to camp here for want of water. A [illegible] will be sent as soon as received."

Another dispatch from General Buller dated at headquarters in Natal, June 11, says:

"We forced Almond's Nek. It is not marked on the map, but is the last defile to Charleston Flats. The enemy were in considerable force with several guns in position. The brunt of the fighting fell upon the Second Dorsets, who carried the position at the point of the bayonet, and the Third cavalry brigade, which was heavily attacked on our right from very broken country around Ikeltai mountain. I hope our casualties are less than 100, which, considering the extreme length of the position, is much less than I expected.

"The whole attack was directed by Hildyard, whose dispositions were extremely good. The artillery, Tenth brigade and Third cavalry brigade did the most of the work."

London Fumes of Rumors.

A plentiful crop of reports has been filtering through Lourenzo Marquez. According to these General Dewet with 12,000 burghers is marching on Johannesburg, the Boers have retaken Bloemfontein and President Steyn again occupies the presidency, the British having sustained a severe defeat at Blandsfontein and have also lost 750 killed and wounded and 150 prisoners in a fight at Vredefort. Nothing from any other source lends color to these stories, with the exception of the last, which is probably the Boer version of the disaster to the militia battalion of the Derbyshire regiment at Roodeval.

In regard to President Steyn being at Bloemfontein, a dispatch from Maseru, Basutoland, dated Monday, June 11, says President Steyn was then at Vrede, 260 miles from Bloemfontein.

General Buller appears to be making substantial progress and ought soon to be occupying the railroad at Charleston (in the northern extremity of Natal) whence, presumably, he will advance on Heidelberg and effect a junction with Lord Roberts.

NOT ANY FOR SCHLEY

Naval Hero Declines to Be Tail For Bryan's Kite.

Philadelphia, June 12.—The Times tomorrow will say editorially:

The name of Rear Admiral Schley has been repeatedly suggested as one of the list from which the Democrats would be likely to choose their candidate for president or vice president, but all who know the views of Rear Admiral Schley uniformly declared that such use of his name was not only unwarranted, but against his own distinctly expressed wishes and purposes. He was specially careful before going to sea in command of the South Atlantic squadron to declare to his friends that under no circumstances would he consent to become a political candidate.

Notwithstanding the publicity given these repeated and emphatic declarations of Rear Admiral Schley he has been frequently discussed as a candidate for the vice presidency, on the ticket with Bryan. The expression from the rear admiral of the refusal to accept public office has just been repeated by him in a private letter to the editor of the Times, dated at Rio Janeiro, May 15, from which the following extract is made:

"Your editorials touching the talk of placing me in nomination with Mr. Bryan reflect precisely what my views are. I know nothing of politics nor of political life and under no circumstances would I allow the use of my name before any convention for any office whatever. I have passed the age when presidential or any other kind of bees worry me. I know nothing of the duties of any political office and am fully content to live the years yet left me in quiet retirement from the turmoil of any office. I am resolved irrevocably not to accept any nomination if it were tendered, and if in my absence it should be elected, I would not serve."

This letter from Rear Admiral Schley was written without any view of publication and in all the frankness of trusting friendship, but it is only an act of justice to him that his views thus clearly and pointedly expressed should be known to the whole country.

THE HULL CITY PLACER LITIGATION BEING SHAPED

Washington, June 12.—The secretary of the interior to-day requested the attorney general to institute suit on behalf of the United States to cancel the patent issued in 1898 to W. S. Montgomery and others for the Hull City placer mining claim in Colorado. This claim has been the subject of considerable litigation. Up to the present time the decisions have been in favor of the holders of the patent, but it is now claimed they were based on false testimony. It was claimed that the land contained placer gold, which is denied and said that the precious metal there is contained in lodes and veins and that the patent was granted upon a false assumption. A part of the town of Independence is located on this claim. Ex-Secretary of the Interior Noble appeared at the hearings at the interior department as counsel for the persons opposing the holders of the miners.

The present action of Secretary Hitchcock is based upon the fact that two persons have sworn that their former testimony was false.

GREATER ARMY NEEDED TO CONQUER THE ASHANTIS

Acera, Gold Coast, June 12.—Details have been received here of another serious reverses to the relief column under Colonel Carter and Major Wilkinson, a day's march north of Prah.

There were heavy casualties. The latest runners report a further disaster to a detachment on the north bank of the Prah which is now flooded and where the Ashantis were found strongly intrenched. Colonel Wilcocks's advance has been delayed by rains which have destroyed the bridges on the Prahsu road. The continued absence of news from Kumassi tends to confirm the pessimistic views as to the safety of the governor and his staff.

The general opinion is that the present force is inadequate to cope with the situation and the local government apparently fails to recognize its gravity.

CAR STRIKERS ARE PASSIVE

Checked By Police and Sheriffs at St. Louis.

ALL THE LINES IN OPERATION

The Kelly Bill Forfeiting Street Car Franchises Killed By the Council.

St. Louis, June 12.—There were no important developments in the street car strike situation to-day. The Transit company claims to have the situation under control by reason of the protection afforded by the police department and the sheriff's posse comitatus. It was stated by the company's official that cars were running on every line in the city, going above the regular schedule in some cases, and in all meeting the demands of traffic.

More men are now employed by the company than there is work for, according to General Manager Baumhoff, and not only is the force being constantly increased by men coming in from other cities, but from the ranks of the strikers themselves, he states.

To-night cars are running on all lines on about the same schedule as last night. Lines to the north and south are still guarded by police, but in the central and western portions there was no trouble and the police have been in other members of the national committee are expected to-morrow morning to attend the meeting of the committee, which is called for noon. Chairman Hanna is due at 1 o'clock to-morrow afternoon.

The old question of representation in Republican national conventions which agitated the national committee at its meeting in Washington last December is more than likely to come to the front to-morrow. The resolution of Henry C. Paine, of Wisconsin, presented at last winter's meeting, and which was withdrawn before it was put to a vote, will again be pressed but not by its authors. The strongest supporters of the Paine measure come from New England. Colonel Charles E. Brayton, national committeeman from Rhode Island, the chairman of the Rhode Island delegation, was made a vigorous effort to have the representation changed.

Henry E. Tiepke, commissioner of industrial statistics of Rhode Island, who will be Colonel Brayton's proxy in tomorrow's meeting, said to-night he would endeavor to carry out the colonel's wishes. Committeeman Brayton, he said, has been in communication with the national committeemen of all states and his replies include more than twenty who favor the Paine resolution. This resolution provides for four delegates-at-large for each state and an additional delegate for every 10,000 Republican votes or majority fraction thereof based on the returns of the last presidential election.

The meeting of the national committee to-morrow will be devoted largely to the hearing of contests from the various states. It is not believed that the committee will finish this part of its work in one day.

The sub-committee of the national committee, held another meeting to-day behind closed doors. According to Chairman Manley, nothing but routine business was considered.

The convention hall will be formally transferred to the national committee to-morrow afternoon, although the sergeant-at-arms will not assume control of the hall until Saturday or probably Monday morning. Invitations have been extended by the citizens' convention committee to Senator Hanna, the members of the national committee and a number of invited guests to inspect the hall. Speeches will be made by Mayor Ashbridge and several others of the visitors.

President McKinley's picture is being hung at [illegible] though the presidential nomination is seldom mentioned by the throngs. The vice-presidential gossip, however, is taking a wide range. The names of many prominent men throughout the country are mentioned as possibilities. So far there has been no concentration of forces here of any one man, and there probably will not be until the national committee gets together.

FAVORS ARBITRATION.

Industrial Commission Investigating Recent Labor Trouble.

Washington, June 12.—Henry F. Devens, of New York, secretary of the Metal Trades association, was before the industrial commission today. He gave the employers' version of the Chicago settlement with the International Machinists' association. He spoke with great confidence of the benefits to be derived from the arbitration clause of the agreement, saying that he believed it would prove an efficient method of settling all difficulties in the future. He also expressed the opinion that a board of arbitrators composed of men in the work would be more acceptable than a state board.

N. F. Thompson, secretary of the Southern Industrial convention of Huntsville, Ala., made a somewhat sensational attack upon labor unions. "Labor organizations are today," said Mr. Thompson, "the greatest menace to this government that exists, inside or outside the pale of our national domain. Their influence for disruption and disorganization of society is far more dangerous to the perpetuation of our government in its purity and power than would be the hostile array on our borders of the armies of the entire world combined."

HONORS TO DEWEY.

Grand Rapids People and Maccabees Pay Tribute to Admiral.

Grand Rapids, Mich., June 12.—Western Michigan did honor to Admiral Dewey today, thousands of excursionists coming from all directions on special trains.

This morning the admiral took a drive about the city, accompanied by Congressman William A. Smith. Mrs. Dewey was unable to accompany him on account of illness caused by a cold contracted in Columbus. On this account the public reception this afternoon planned in her honor by the ladies of the city was canceled.

The parade in Dewey's honor this afternoon was one of the finest seen in Grand Rapids. It was combined with the parade of the great camp of the Maccabees which is an institution here. More than 2,000 Maccabees were in line, together with military and civic societies and industrial floats.

Admiral Dewey rode near the head of the parade. The visiting party will leave for Washington this evening.

INTO A SEA OF ICE.

Fears Entertained for the Safety of Shipload of Arctic Gold Seekers.

Chicago, June 12.—A special from Tacoma, Wash., says:

News of the Cape Nome fleet was received here today in a letter from John Gleason, who sailed on the South Portland. The letter was dated May 19 and says the Bering sea was not open. Fears were entertained lest the steamer Alpha, which sailed April 15, with 300 passengers, was crushed in the ice on her second attempt to get through to Cape Nome from Dutch Harbor. The passengers were resolute and fearful of the Arctic dangers to be encountered when they put out from port the second time on May 8.

The schooner Annie returned to Unalaska May 18. She met a large field of ice 300 miles to the north, but saw nothing of the Alpha.

TWO DEAD, ONE WOUNDED.

Kansas City, June 12.—Two city detectives, Matt. Kenney and Henry Sparks, undertook to stop a fight between a crowd of negro men and women in East Third street this afternoon and as a result of an exchange of shots, Rufus Bennett, a north end loafer, and Ora Gibbs, the latter a woman, were killed, and Charles Jackson, proprietor of a barber shop, was seriously wounded. Two score negro men and women had mixed it up in the street with knives and beer bottles, and the detectives interfered with the result stated.

BRYAN'S TAXES.

Lincoln, Neb., June 12.—The reports of city assessors show that William J. Bryan pays more taxes on personal property than any other man in Lincoln or Lancaster county. In 1899 his property was assessed at $2,880 and this year $3,000. The increase is mostly in bank accounts and credits.

TO NAME A PRESIDENT

Republican Committeemen and Delegates Assembling.

REPRESENTATION QUESTION

It Will Come Before Meeting of Committee Today Convention Hall Practically in Readiness.

Philadelphia, June 12.—This city is rapidly taking on a national convention aspect. A number of national committeemen and delegates arrived today and the hotels are beginning to fill up. Prominent among the national committeemen now on the grounds are Frederick S. Gibbs, of New York; Ambassador Powell Clayton, Arkansas; J. W. Yerkes, Kentucky, and L. F. Hubbard, of Minnesota. Nearly all the

The sub-committee of the national committee, held another meeting to-day behind closed doors. According to Chairman Manley, nothing but routine business was considered.

The convention hall will be formally transferred to the national committee to-morrow afternoon, although the sergeant-at-arms will not assume control of the hall until Saturday or probably Monday morning. Invitations have been extended by the citizens' convention committee to Senator Hanna, the members of the national committee and a number of invited guests to inspect the hall. Speeches will be made by Mayor Ashbridge and several others of the visitors.

President McKinley's picture is being hung at [illegible] though the presidential nomination is seldom mentioned by the throngs. The vice-presidential gossip, however, is taking a wide range. The names of many prominent men throughout the country are mentioned as possibilities. So far there has been no concentration of forces here of any one man, and there probably will not be until the national committee gets together.

WARRING FACTIONS MAR DEMOCRATIC HARMONY

Columbus, Ohio, June 12.—The McLean men controlled the preliminary meetings today, but they are evidently playing for Kilbourne more than for places and may not carry out the same programme in the Democratic state convention.

John R. McLean's friends are in the majority on the new state central committee that was selected this evening and it will select the campaign chairman and members of the state executive committee at a later date. It is claimed that the McLean men in securing control of the party organization tonight for another year have all they wanted, and although they could control everything tomorrow, as they also have majorities on the convention committees, that they will be a free-for-all contest for the state ticket and delegates and alternates to the Kansas City convention.

The contests from Cleveland and Dayton came before the old state committee this afternoon. The tickets and badges were given to the McLean delegates from both Cuyahoga and Montgomery counties. As these decisions apply only for seats during the temporary organization, the result may yet be reversed. The application to the mayor tonight for 20 policemen at the convention hall tomorrow led some to believe that there may be trouble.

The opposition to McLean comes from the silver extremists.

The ultra-silver delegates also appear to be dissatisfied with the proposition to endorse Dewey for the vice presidential nomination.

The platform which will be submitted to the committee on resolutions tomorrow was in the main prepared by General A. J. Warner. It reaffirms the Chicago platform and denounces the recent monetary act of congress as "a most infamous outrage on the common people than the demonetizing of silver."

General Warner's resolutions were passed upon by a sub-committee of the committee on resolutions, and will doubtless be submitted to the convention tomorrow. General Warner is president of the Bimetallic League and the pioneer advocate of unlimited coinage, but in explaining his platform he said there had been more important issues raised since 1896 than the restoration of silver to its constitutional place in coinage. He spoke of "the mission of the constitution under an administration of imperialism, conquest, aggression and corruption," as the greatest danger that ever threatened the country. He also held that the trusts outranked silver now as an issue.

Ardmore, I. T., June 12.—Indian Territory will send contesting delegations to the national democratic convention. The territorial convention which convened here yesterday and split into various factions [illegible] between A. J. Wolverton and Thomas Macrum, both candidates for national committeeman, continued today in the conventions. Both conventions nominated delegates to the Kansas City convention. There was bitter feeling on both sides and street fights were numerous. The Wolverton faction was successful in organizing the regular convention yesterday, named Wolverton for national committeeman and elected the following delegates to the Kansas City convention:

At large—Preston S. Davis, Vinita; C. H. Tully, Eufaula; D. W. Talbot, Miami; Yancey Lewis, South McAlester.

The Macrum convention, composed of the holters, named Macrum for national committeeman and elected the following delegates:

At large—W. T. Hutchins, Muskogee; J. F. Sharp, Purcell.

The regular convention adopted resolutions endorsing Bryan, denouncing the Republican policy in [illegible], expressing sympathy with the Boers, favoring home rule in the territory and demanding that the Indians be treated fairly and justly and thus none of their treaties be changed without their consent.

Milwaukee, Wis., June 12.—Bryan sentiment pervaded the Democratic state convention held today to elect four delegates to the national convention at Kansas City. Not until three sessions were held did the convention complete its business tonight, the afternoon and evening sessions being characterized by spirited, though friendly contests. The [illegible] delegates at large: David S. Rose, Milwaukee; George B. Hilton, Oshkosh; D. L. Plimer, Wausau; Louis G. Behmisch, Kenosha.

The contest on national committeeman was left for the delegation to settle at Kansas City. Indications point to the re-election of Edward C. Wall.

After a session of the committee on resolutions which lasted two and a half hours the committee finally decided upon a platform endorsing the Chicago platform, eulogizing William J. Byan, denouncing the Republican party, opposing trusts and demanding a reduction in the internal revenue tax.

The platform was adopted without dissent.

GOVERNOR THOMAS MAY HEAD DEMOCRATIC HOSTS

Chicago, June 12.—Chairman Jones, of the Democratic national committee, will meet with the sub-committee on arrangements on the convention in Kansas City next Friday, when the selection of temporary chairman will be made.

Governor Charles S. Thomas, of Colorado, seems to have excellent chances for the position. It is admitted the choice lies between him, Mayor Rose, of Milwaukee, and James D. Richardson, of Tennessee. Others whose names have been mentioned are Mayor Harrison, of Chicago, Governor Stone, of Kansas, and Congressman John J. Lentz, of Ohio.

FLAMES DEAL DEATH IN A NEW YORK BUILDING

New York, June 12.—Three men were killed, eight so badly burned or maimed that they are in the hospital and [illegible] other men are missing, as the result of a fire in the cooperage establishment of Paul Weidmann, at North Eleventh street and Wythe avenue, Williamsburg, Brooklyn, to-night. The property loss is variously estimated at from $75,000 to $250,000.

The dead are:

AUGUST BENEDICT, 50 years old, burned so badly that he died immediately after being taken from the building.

JOHN M. LOCKWOOD, 66 years old, died from being crushed by falling timber.

[illegible] burned to death.

The building was four stories high, and there were over 100 employes in the place at the time. Many of these leaped from the windows. It is said that at least two score of people dropped before the firemen had arrived. When they came [illegible] August Benedict, the upper windows, August Benedict, a cooper, was hanging out of one of the windows with all of his clothing aflame. He held on to the ledge while the ladder was being run up to him. He was so badly burned when he was taken down that he died half an hour afterward.

John M. Lockwood had his chest crushed by a falling timber and died in the Eastern district hospital about 11 o'clock to-night.

The unknown man was taken from the burned building late to-night and the body was so badly cremated that identification was impossible.

FLORENCE ITEMS

Baseball Fever is Raging Among the People Work of Evangelist—General Notes

Special to the Gazette

Florence Colo June 12. Carpenters union No 454 of Victor challenged the Florence carpenters union No 475 to play base ball The challenge was accepted and the game will be played for honors there being no money wager

According to arrangements the game will be pulled off on the Florence grounds one week from next Sunday when it is expected that the home team will saw off a few innings

The base ball fever has taken hold in Florence in its worst form Shortly a ball game between the printers and barbers will be played. A few days ago the doctors and lawyers crossed bats which resulted in a victory for the latter

The United Oil company has a force of men at work platting a forty-acre tract of land in the south part of town This will be divided into lots and in the center of the tract a small park will be reserved This land is not far from the smelter site and it is expected that there will be no trouble in selling lots in the new survey

Fires were started yesterday morning beneath a monster kiln of 1,000,000 brick for the Florence Brick Tile Building and Investment company the which was recently organized and is composed of local people It will take about eight days before the burning is completed The clay used in this brick is of a good quality and will make excellent building material Florence has had a brick famine for a long time and this huge kiln will help to supply the demand

In nine consecutive evangelical meetings the influence of the Rev Millard A Jenkins of the Baptist church was brought to bear on the minds of forty young and old each of which have confessed conversion Out of this number there were twelve baptisms There are eight candidates for baptism Rev Jenkins is from Mason City and will remain with us but a short time having come primarily to help

W L Morris a young jeweler of this city left today for Salida where he and Miss Francis will be married Friday evening at the home of the bride's parents The young couple will make their home in Florence

CRIPPLE CREEK

Colorado Springs' District Railroad Right of Way Matter Goes Over

Cripple Creek June 12 At the meeting of the city council tonight the matter of vacating the streets and alleys and the lots on which certain buildings have stood for years in favor of the right of way of the Colorado Springs and Cripple Creek District railroad came up for settlement but the committee appointed last week to make investigation of the property was not ready to report

James S Walker the attorney representing the property owners who have given the right of way asserted to the council the attitude of the road towards vacating the property for the right of way of the road He reported that some of the residents there have purchased lots from the Midland Terminal Railway company on a contract and have resided on the property for some time thus having acquired rights that must be respected

Alderman O'Brien a member of the committee appointed last week asked for a week longer in which to continue the investigation and make reports The motion carried He made a few remarks in which he said the council should guard the rights of the people against the company He believed if the council has anything to give away it would be better to give to the citizens than the railway company His remarks were fully applauded by the spectators

F E Miller city engineer submitted surveys made by him of the grades necessary to be made on the streets in the vicinity of the new road in order to conform to the railway grades

A motion was unanimously carried that [illegible] be paid the Santa Fe for the issue of July 189 and which search fee was filed by Adams of Denver The claim was passed in 189 [illegible] issue [illegible]

LIGHTNING PLAYED UPON TROLLEYS

One of the shortest electrical storms ever witnessed in this region occurred yesterday afternoon between 1 and 2 o'clock Although there was no serious damage done sharp flashes could be seen jumping about among the telegraph and telephone wires The electric car wires caught several heavy charges

During the storm Mrs Greenfield who drives a tourist carriage was unhitching her team at the Anderson corral on South Nevada avenue, when a bolt of lightning struck dangerously near her She was thrown violently to the ground and remained in an unconscious state for several minutes Two men who were working near by noticed her fall and they ran quickly to her She soon recovered from the effects of the shock

The center of the storm seemed to be about the corner of Pikes Peak avenue and Tejon street The [illegible] electricity was beautiful as it flashed among the wires Those in the upper stories of buildings near by were greatly alarmed at times but no one was hurt during the storm

About 1 o'clock the trolley wire on the Manitou line broke down just [illegible] the viaduct and cars were held there for an hour while the trouble was being repaired The motors in several cars were burned out as a result [illegible] electricity carried along the wires and staff over the different lines

PLENTY OF STARCH FOR EVERYBODY

Will Bartlett
Walter Jackson
Robert Robbins

These are the boys who had the starch contest Yesterday at the present time

The boys state that there are a good many people in the city who do not know what the starch can be procured Anyone in such a dilemma who will send his or her name to the Y M C A will receive 10 calls in 10 minutes

The lads of the Y M C A will have a good deal of amusement by being present at headquarters at 8 o'clock on night when the boys are making their returns The different exhibits that are shown are of great interest

THE CHICKEN WALK DREW BIG CROWD

The colored people of the city held forth at a grand musical and chicken walk given under the auspices of the Lenten Head club The hall was well filled during the evening and [illegible] to share in the festivities

During the first part of the excellent programme a [illegible] crary numbers was given by Mrs Dora Reed All were well rendered and highly [illegible] After the musical, a dance was held Two cages were placed on the stage and [illegible] as prizes to be given to the [illegible] couples in a waltz [illegible] couples walked for the [illegible] them performed in a manner and the judges found [illegible] in making a decision [illegible] to award the first prize [illegible] the second prize to Mrs Ellison

The remainder of the [illegible] in dancing

E. Z. Shoes

The warm season is just approaching, when we Coloradoans suffer so much with our feet, and our minds naturally turn to the subject of easy shoes, and where we can get them. It has been our object in buying for this season's trade to fill the demand made for easy shoes. We feel that we have covered the whole ground

Variety, Style and Comfort at Right Prices.

Frank A. Vorhes, 22 South Tejon St.

More Contestants for Gazette Cottage

Mr. and Mrs. C. M. Sandidge, Colorado City.
Mr. and Mrs. I. D. Miller, Danville Mines.
Mr. and Mrs. George McMillan, Altman.
Mr. and Mrs. Harry L. West, Colorado Springs.
Mr. and Mrs. Charles Bailey, Colorado Springs.

Mr. Bailey is employed at the Colorado Midland shops and is a member of the Colorado Midland band.

The contestants for the Gazette summer cottage with its furniture and its Crown piano continue to be heard from. The latest is another couple from Colorado Springs who will draw their support from a very wide circle of acquaintances in Colorado Springs and elsewhere. Mr. Bailey being a member of the Midland band, will have not a few friends wherever the band has been heard, and the band can do a great deal for him if it ever gets started and keeps it.

One of the most striking results of the Gazette contest lies in the activity which it has started in the sale of sites for summer homes in the immediate vicinity of the cottage.

The sale of lots for summer residences in Dixon Park Place has been quite lively since the announcement of the summer cottage contest and whoever wins the prize may be assured of congenial neighbors and many of them. The Davie Realty company reports the sales since the opening of the contest:

Lots 52, 53, 54 and 55, block 7, Dixon Park Place to Mrs. Fannie Harris; lots 69, 70 and 71, block 2, Dixon Park Place, to Emma Cobb; lots 64 and 65, block 2, Dixon Park Place, to Mamie Mooney; lots 37 and 38, block 2, Dixon Park Place, to Chas. Dodson; lots 34 and 35, block 2, Dixon Park Place, to A. Van Howling; lots 9, 10, 11, and 12, block 2, Dixon Park Place, to E. D. Cole; lot 3, block 2, Dixon Park Place, to E. A. Callaway; lots 1 and 2, block 2, Dixon Park Place, to J. J. Johnson; lots 56 and 57, block 2, Dixon Park Place, to R. Dodson; lots 1, 2 and 3, block 7, Dixon Park Place, to Agnes Whitehead; lots 26 and 27, block 7, Dixon Park Place, to J. B. Lindsay; lots 31 and 32, block 7, Dixon Park Place, to R. H. Widdicombe; lots 33 and 34, block 7, Dixon Park Place, to J. H. House.

The purchasers have all indicated their intention of improving the property at once and several have already begun building.

How to Vote.

Cut out the voting coupon printed in the Gazette each day, enclose the coupons in an envelope, seal the envelope and write plainly thereon the following:

.....Votes

For.....

Prize.....

Dated.....

Remarks.....

Candidates may be announced and any claims for support that friends of candidates may desire to have printed in the Gazette should also be stated under this head on the outside of the envelope or sent in an envelope separate from the one enclosing coupons. Each envelope received will be sealed the same as an express money package in the presence of the party depositing the vote when delivered in person, and only the end of the envelope will be opened for the verification of the count of inclosed coupons, leaving the package practically intact for the committee who will finally count and verify the Gazette's preliminary count.

THIS COUPON Counts ONE VOTE

RUMOR HAS A PAY CAR HELD UP

Some excitement was created in this city and Pueblo last night by a report that the Rio Grande pay-car had been held up and robbed. In Pueblo where the car was due at 10 a. m., it was said the holdup had occurred in Colorado Springs, some reports saying an attachment suit caused a delay. The fact was the Rio Grande is doing such a heavy business and has so much improvement in progress, the car made unusually slow progress between here and Pueblo and did not reach the latter place until 6 p. m., eight hours late.

AT MANITOU PARK

There are quite a number of guests at Manitou Park for the season, including Mr. and Mrs. D. O. Ives and Master Stephen Ives, and maid of St. Louis; Mr. and Mrs. L. H. Bell, Miss E. Bell, Mr. A. Bell, of Philadelphia; Mr. E. G. Anderson and Mr. H. Andrews, of New York; Mrs. Jameson, Mr. Wylie Jameson, Miss Annie Stocks, Mr. and Mrs. Cunningham and maid, and Master Cunningham; Mrs. Butler and maid, of Colorado Springs.

EVENTS AT OVERLAND

Denver, June 12.—The racing at Overland today was good. A fair crowd attended to see the sport. The favorite, George C., after taking the first two heats, was beaten by Thomstone. Master Mariner, at odds of 4 to 1, won the third race from Panamint, the favorite, and R. Q. Ban, second choice at even money. Both those horses were heavily backed in the books. Results:

First race—Pacing, 2:18 class, purse $500.

Thomstone	2	2	1	1
George C.	1	1	2	3
Eva Victor	3	2	3	2
Princess	4	4	4	dis

Time, 2:14¾, 2:15, 2:24¾, 2:23¾, 2:24¼.

Second race—Trotting, 3-year-olds, purse $500; two in three.

Lady B Gray	1	1
Mary Climes	2	3
Juanita	5	2
Jennie B.	3	4
Red Ferry	4	5
James H. Carroll	6	dr

Time, 2:35¾, 2:34¾.

Third race—Running; seven furlongs. Cousin Letty won; Miss Redwood second, Corolla, third. Time, 1:32¼.

Faywood, Mickle, Stroine also ran.

Fourth race—Six furlongs. Master Mariner, won; R. Q. Ban, second; Panamint, third. Time, 1:17¼.

Terrene, Sevoy, Sea Queen also ran.

Fifth race—Five and one-half furlongs. Billy Underwood, won; Gold Bug, second; Interview, third. Time, 1:11¼.

Lorinda, Glorianna, Timpse, Joe Hart, also ran.

LADIES ON THE LINKS

Play in the Metropolitan Championship Miss Underhill Will Play Again Today.

New York, June 12.—The women's metropolitan championship golf tournament was continued today on the links of the Morris County Golf club at Convent station, with the first round at eighteen holes match play. Miss Beatrix Hoyt, winner of three women's championships, played sterling golf, and beat Mrs. W. J. Berg three up and two to play. The total scores were:

Miss Hoyt—Out 47, in, 38.

Mrs. Berg—Out 48, in 43.

Miss Maud K. Wetmore, matched against Miss Kip, won by a score of 102 to 105. Miss Ruth Underhill, the champion, defeated Miss Louise Maxwell, 94 to 98.

The pairing for the second round tomorrow, for the championship, is as follows:

Miss Fargo against Miss Beatrix Hoyt; Miss Maud K. Wetmore vs Miss Genevieve Hecker; Miss Ruth Underhill vs Mrs. W. Fellows Morgan, and Miss Hurlbut vs Miss M. Chauncey.

IN THREE ROUNDS.

Terry McGovern Makes Short Work of Tommy White A Fast Fight.

New York, June 12.—Terry McGovern fully lived up to his title of featherweight champion at the Seaside Athletic club tonight by knocking out Tommy White, the clever Chicago man, in three rounds. The little champion never showed better form and gave his opponent no rest from the sound of the gong in the opening round until the referee had counted off the fatal ten seconds. He took the stiff jabs which White landed out to him with a smile and forced Tommy about the ring with terrific drives to the body and head. After the first round White's face took on a frightened look and he clinched repeatedly to save himself from punishment, but Terry tore away from his grasp as though White were a baby. The crowd looked for a quick ending but there were few present who expected the termination to come so soon. The third round was a succession of knock downs for White. No sooner would he regain his feet than he would go down again and after going down for the seventh time he was so far gone that it was impossible for him to get up again, although he made a game effort. The men were to have fought twenty-five rounds at 128 pounds.

Several challenges were issued to McGovern before the bout, but it is doubtful if any who now aspire to his title would go much further than White did.

FOUGHT A DRAW.

Chicago, June 12.—George Dixon and Benny Yanger, the "Tipton Slasher," fought a fast six rounds to a draw at Tattersalls tonight. Yanger surprised even his most ardent admirers by his excellent showing, as up to six months ago he was a comparative novice in the ring. The betting was 5 to 4 that Dixon would win, but very little money was placed at these odds.

In the semi-final wind up Billy Stift of Chicago was given the decision over Jack Jeffries, a younger brother of the heavyweight champion.

EIGHTEEN HOT ROUNDS.

Cleveland, O., June 12.—Oscar Gardner and Billy Ryan fought eighteen terrific rounds tonight at the Business Men's gymnasium. It was the gamest fight seen here in a long time. From the eleventh round on Ryan had the better of the fight until he was finally knocked out by a blow on the jaw, after he had broken away from a clinch.

BASE BALL

WESTERN LEAGUE.

Denver 7; Des Moines 4.

Des Moines, June 12.—Score:

									R	H	E

Batteries—Cochran and Cody; Gibson and Kling.

NATIONAL LEAGUE.

Philadelphia 6; St. Louis 5.

Philadelphia, June 12.—It looked like a victory for St. Louis until the seventh inning today, when Philadelphia took a brace all the hat. The locals made two runs off Taylor, after which with a wild throw by Tebeau, gave them five runs and the game. Score:

									R	H	E
St. Louis	2	1	0	0	0	0	0	0	5	16	3
Philadelphia	1	0	0	0	0	0	5	0	6	7	2

Batteries—Jones and Criger; Donohue and McFarland.

Boston 3; Pittsburg 1.

Boston, June 12.—Neither Boston nor Pittsburg could hit with any effect today but bases on balls proved costly. Pittsburg's runs and two of the Bostons' being scored by men who went to first by grace of the pitcher. Score:

									R	H	E
Boston	1	0	0	0	0	0	2	0	3	4	2
Pittsburg	1	0	0	0	0	0	0	0	1	5	1

Batteries—Dineen and Sullivan; Chesbro and O'Connor.

New York 4; Chicago 0.

New York, June 12.—Today's game between the New Yorks and Chicagos was a pitcher's battle. Carrick had the better of it. He kept the Chicagos' hits well scattered. The New Yorks won the game by mixing hits with Chicagos' errors in the sixth and eighth innings. Attendance 2,100. Score:

									R	H	E
New York	0	0	0	0	0	2	0	2	4	5	1
Chicago	0	0	0	0	0	0	0	0	0	3	3

Batteries—Carrick and Bowerman; Callahan and Donohue.

Brooklyn 5; Cincinnati 4.

Brooklyn, June 12.—Irwin's home run, with McBride on second, tied the score in the ninth today, but Keeler's triple and Jenning's single returned the Brooklyns winner in their half. It was a pitchers' battle in which Kitson had the advantage of steady support. Attendance, 800. Score:

										R	H	E
Cincinnati	0	0	0	0	1	0	1	0	2	4	6	2
Brooklyn	0	0	0	0	1	2	0	1	1	5	6	1

Batteries—Scott and Wood, Kitson and McGuire.

COLORADO SPRINGS GAZETTE

Published Every Day in the Year

Sixty Cents a Month — Seven Dollars a Year

AS REGARDS CIRCULATION.

AN IRRESPONSIBLE firm of out of town publishers who have recently been endeavoring with small success to capture the directory business in this city to the detriment of Colorado Springs business houses, have gone outside of the circle of their legitimate business to publish a statement of the alleged results of a canvas made to ascertain the local circulation of various newspapers.

This statement bears every appearance of a paid advertisement, a hired misrepresentation of the facts for the benefit of one or more of the parties in interest, and its general worthlessness may be best gathered from the following sentences taken from the statement in question:

"The canvass has been taken with as much care as possible and although it is very probable that the canvassers did not secure the names of every person subscribing to newspapers, the chances are that the proportions of circulation as given below are substantially correct.

"This canvass has extended over a period of two months, and it is probably a fact that each paper has a larger circulation than is accorded by this canvass."

Any company that would publish statements which are confessedly inaccurate, which are certainly false and which are manifestly intended to be misleading, whether for hire or from any other motive, advertises itself as unworthy of confidence or public patronage and deserves to be exposed and condemned.

The Gazette has no desire to follow any of its competitors through the devious ways by which they are endeavoring to establish a reputation for circulation. There is one way, and only one, adopted by reputable newspapers and that is to give the exact facts in the case. For a year and a half the Gazette has been publishing a sworn statement of its exact circulation supported by a guarantee of The Advertisers Guaranty Company. Such a statement is worth a thousand times more than any alleged and confessedly imperfect canvass of a tramp directory publishing company.

However, to correct any false impressions that may have arisen through a misunderstanding of a statement that is evidently intended to mislead and to deceive, the Gazette wishes to make the following statement of facts:

The Gazette has a larger local circulation in Colorado Springs and its suburbs, including Manitou, Colorado City, Roswell, Broadmoor and Ivywild, than the combined circulation of all other dailies circulating in this district.

The total circulation of the Gazette is more than double the number of papers circulated by all other daily Colorado newspapers in the territory of Colorado Springs, Manitou, Colorado City and Broadmoor.

The Gazette has a larger circulation in Denver than all the Denver papers combined have in Colorado Springs.

The Gazette has a larger circulation in Cripple Creek district than any other daily published outside of that district.

The Gazette has a larger circulation in Florence and Canon City than any other daily paper published outside of those two cities, except the Denver News.

The Gazette has a larger circulation in Pueblo than any other paper published outside of that city, except the Denver News.

The Gazette has three times the circulation throughout the state of Colorado of any paper published outside of Denver.

The Gazette is the only paper in the state of Colorado, except the Denver News, whose paid circulation is guaranteed by a responsible Advertisers Guaranty company under a bond of $50,000.

We have consistently assumed the position that our circulation is a matter which concerns us and our advertisers alone, and we are not nor have we been interested in the circulation of alleged competitors. A newspaper speaks for itself for what it is, for its standing in the community and the support that it is getting from its patrons. According to that standard the Gazette is willing to be judged. Further than that our books are always open to our advertisers and any information regarding our circulation in general or in particular will be cheerfully furnished at the business office.

PRINCIPLE VS. POLICY.

THE eastern Democrats are making a very vigorous fight to secure a modification of what they regard as the ultra views of Mr. Bryan and the western Democrats. If they could have their way the programme would be as follows: Nominate Mr. Bryan, but substitute for vice president in place of Mr. Towne some eastern Democrat like Van Wyck, and modify the objectionable features of the Chicago platform into a "working document."

Fresh strength appears to have been given to the efforts of the eastern Democrats by the results of the Oregon election, which is taken by the New Yorkers as [illegible] together in the Pacific and Rocky mountain states. Oregon, Washington, Kansas and the Dakotas are conceded to the Republicans, while Nebraska and Colorado are regarded as doubtful. Under the circumstances the easterners are declaring that Mr. Bryan has absolutely no show at all if he sticks to his principles, and that his only chance is to abandon the silver issue, adopt a "sensible" attitude on the trust question, and make anti-imperialism the main point of his campaign with the chance of saving New York, Connecticut and one or two other eastern states.

Some of the New York newspapers pretend to believe that this will be done, but we do not believe it. Whatever else may be said of Mr. Bryan he is sincere, and we do not believe that he will allow himself to be placed in the ridiculous position of being first on a ticket whose second place is filled by a man opposed to him in all things and on a platform which is a denial of his most cherished principles.

Wm. J. Bryan with a gold Democratic running mate and a platform from which all references to silver have been carefully eliminated is not the sort of a William J. Bryan that the people of the west have become acquainted with, and irrespective of party, have had a large measure of respect for.

The New-Yorkers need not flatter themselves that by acquiesting in the nomination of Bryan, which they would gladly prevent if they could do so, they will be able to get the sort of vice presidential nominee and platform they desire.

AN HONOR WELL DESERVED.

THE election of Dr. Florian Cajori, professor of mathematics in Colorado College, as a member of the German Mathematical union, is a high honor, well deserved.

Dr. Cajori's original work has already been the subject of much favorable comment both in the United States and in Europe and this official recognition by the German society sets a stamp of approval of high authority upon it.

Incidentally it is a satisfaction to have this fresh evidence of the rank of our college and the standing of the men who are serving as members of its faculty.

THE UNITED STATES AND CHINA.

SO FAR the attitude of the United States in China has been absolutely correct and entirely successful. While preserving the strictest neutrality and remaining on friendly terms with all the great powers, we have been able to exert a strong influence upon the side of peace and to maintain our own interests.

Every day that the present situation is maintained makes it more likely that the troubles can be settled without a clash of arms between the European nations. If the powers will continue to act together and will preserve their concert, without dividing into hostile parties or seeking to advance selfish and individual interests, it may be possible for them to get through without quarreling among themselves; and so long as they are able to do this they need have little fear of any opposition to their policy that may come from within the Chinese empire.

The position is one of extreme difficulty and danger, but the events of the past few days have been hopeful, so far as the prospects of European war are concerned. The apparent good faith of Russia is one of the most encouraging incidents, and if it is sincere will go a long way towards maintaining peace. In fact the situation seems to be almost wholly within the control of Russia. If that power will loyally exert its power towards the suppression of disorder and the maintenance of the statu quo in China the efforts of the powers will certainly be successful. But if, on the other hand, Russia is playing a double game, if she really is, as she has been accused of being, the promoter of the disturbances and intends to make them an excuse for seizing territory or intervening by independent action in order to secure a position of advantage which she has no intention of relinquishing, then war can hardly be avoided except by a weakness and yielding on the part of the other powers that is wholly improbable.

But in any event the attitude of the United States has been clearly forecast, and it will undoubtedly be maintained. It will be our policy to preserve all our friendships, to engage in discriminating alliance with none, to exert to the limit of our influence our efforts in behalf of peace and the restoration of order; but if hostilities occur we have in China nothing worth fighting over and must maintain our neutrality until the dispute is settled, when we will again be in position to urge the establishment of our commercial privileges under our treaty rights.

TRUTH AND HONESTY.

NO TWO things [illegible] more closely than those of truth and honesty. This fact is not only interesting as a matter of morals and philosophy, but it is of great practical importance. The man who is addicted to falsehood is seldom honest in his dealings with other men, while in nearly every instance he who is scrupulously truthful may be depended on to be honest under all conditions.

The United States is having a practical illustration of this principle on a wholesale scale in Cuba at the present time. It is difficult to tell whether dishonesty or falsehood is the more prevalent vice in Cuba at the present time, but undoubtedly both exist in a measure unaccustomed to American minds, and together they form a very substantial difficulty in the administration of government.

It would not be fair nor true to say that all native public officials in Cuba are dishonest, but enough of them are so to make honesty the exception rather than the rule, and to cast a shade of suspicion upon them all. At the same time, according to the usual custom in such instances, the dishonest ones are always endeavoring to cover up their own misdeeds by a cloud of false accusations against those who are truly honorable. It is these false accusations which make the work of detection and punishment especially difficult, for the false prosecutions against the honest and the just charges against the dishonest are made with equal force and have an equal chance of reaching the public ear. With a public which has been educated to believe that all public officials are naturally dishonest, and with a press venal and corrupt, the task of establishing a healthy public sentiment and honesty in official conduct seems an almost impossible one.

It must, however, be remembered that these conditions are the result of an experience of misgovernment extending over a long term of years. It should not be expected that they can be remedied in a few weeks or months. But changed conditions, and the prevalence of official honesty and a resolute determination to punish breaches of official faith will bring about a better condition as surely as the sanitary measures of the American engineers have changed the filthy streets and harbors of the Spanish cities.

CAUSES OF FAMINE.

THE New York Committee of One Hundred on Indian Relief, in a circular recently issued, gives some interesting information regarding the causes of the famine.

The primary cause of famines, it says, in India as elsewhere, is the lack of rain and the consequent failure of crops and pasturage. The present drought is the worst for thirty years. Secondly, lack of food is greatly aggravated by lack of work, therefore of wages, not only for farmers, but in every line of business. In a word a famine is an immense lock-out effected by nature in the industries of the country. There is also the third fact that the government of India by putting a stop to the old bloody inter-tribal wars and by efficient measures to check pestilence and famine has so improved the conditions of life that the population has increased under the British rule from 130,000,000 to nearly 300,000,000.

It is this latter fact which is the most hopeless element in the situation, for if the effect of famine relief is to further increase population beyond the supporting power of the earth then the task of charity will shortly become an impossible one and the ultimate effect will be only to postpone suffering and death to a later period. When in a circular issued to influence charity, famine relief is given as one of the causes of famine, we must feel that we are face to face with a most stupendous problem, and one which may well tax the wisdom of the wisest of human statesmen.

The connection between the troubles in China and renewed activity on the part of the Boers is obvious. Great Britain would be very glad to postpone dealing with the Chinese until the Transvaal was pacified, while to the Boers the news from China is most encouraging and inspiring.

The record for recent foolhardiness is probably held by two bicyclists of New York. They rode across the Erie viaduct at Lanesboro, a quarter of a mile in length and 300 feet from the ground, their track being the top of a [illegible] inches in width, unguarded by rail or anything else.

The commencement exercises to-morrow at Colorado College promise to be the most interesting ever held. The College has made rapid strides to the foremost ranks during the past year and to-morrow will mark an eventful day in its history.

Tom Maloney is the chairman of the delegation to Kansas City after all. You can't keep a good Irishman down.

The ticket of McKinley and Wolcott is growing more and more in favor as the convention day approaches.

OPEN PARLIAMENT

Beneficent Imperialism.

To the Editor of the Gazette:

The terms "Imperial" and "Imperialism" suggest to many Americans only empire and aggrandizement. At the present time these expressions are constantly on the lips of political demagogues and others, who ring thereon all the changes of which the language is capable. They profess to believe that, under the so-called "imperial" policy, our republican government is enslaving other and weaker peoples and committing a multitude of sins, of both high and low degree.

Let us not be afraid of the word "imperial." While it may mean sovereignty (or supreme authority), it has other definitions as well, one of which is "superior size or excellence." It is often said that the United States has an "imperial domain," and New York is called the "Empire State."

Anti-imperialism, or anti-expansion, as we are getting to know it locally, is, in its worst form, pure demagogism; in its milder aspect it is, in the main, sentimentalism or gush. It is fair to say, however, that numbers of our country men, who are honest, and generally intelligent, have, in this connection, fallen into strange beliefs. They declare, with apparent sincerity, that the federal administration is cruelly depriving the struggling Filipinos of life, liberty and the pursuit of happiness, grinding to powder the guileless and defrauded natives of Puerto Rico, and covertly plotting against the future well-being of Cuba. Those who venture to traverse these strongly expressed opinions are denounced as enemies of their kind, ruthless supporters of a monstrous tyranny.

These reflections are induced by a recent account of the manner in which Harvard university is about to entertain and teach, during the summer vacation 1,400 Cuban teachers. This has been justly characterized as a noble work which will entitle Harvard to the gratitude of the nation, and result in a higher appreciation—both at home and abroad—of American civilization. Radcliffe college, the seminary for young women, associated with Harvard, will co-operate; the ladies of the party being assigned to that institution. Not only will these Cubans receive most useful instruction, but during the entire period of their stay in this country special provision will be made for their comfort and pleasure, even to the careful recognition of their native customs and social prejudices.

Is this merely a sporadic case, an exceptional kindness, or does it really show the good will and enlightenment of the American people? Is it an indication of wise and generous public opinion, or should it be credited to a few New Englanders—mugwumps or otherwise? Seriously, it is one of the finest and most significant incidents following the war with Spain. Harvard has done well to set the pace. There are scores of other American colleges that would gladly imitate her example.

If benefactions like this result from "schemes of empire," it is difficult to see where the wrong and oppression come in. If we have, as a nation, sound Christian principles, and are loyal to our ideals and our government, it is not probable we will harass and plunder our weaker brethren. On the other hand, it is altogether likely they will be treated justly and kindly; not to the extent of condoning wrong doing, but in the exercise of firm, dispassionate and necessary authority. We surely have enough good sense and virtue to proceed along these lines our disgruntled fellow citizens to the contrary notwithstanding.

In my opinion, there are no existing reasons why America should, in a selfish and craven spirit, stand aloof from the preordained mission of civilizing and regenerating mankind, and making fruitful the waste places of the earth.

Is not our vision clear enough to see, and our faith sufficient to believe, that the downfall of Spanish power and the rise, upon its ruins, of American prestige and influence, are as plainly acts of Providence as other notable historic events?

Edgar L. Ensign.

FROM THE STATE PRESS

Items of Interest for Gazette Readers From All Parts of the State.

THE OREGON ELECTION.

Oregon has gone Republican by such a majority as to have no doubt what the result will be in the coming presidential election.

The state legislature will be strongly Republican and besides the two congressmen elected a Republican United States senator is assured. This is the first gun of the campaign.—(Akron Pioneer Press.

The result of the election in Oregon was watched with peculiar interest by both political parties as foreshadowing the result of the national election in November. The state was carried by McKinley in 1896 by a majority of 1,800. In the recent election the average Republican majority is about 12,000. The Republicans will control both branches of the state legislature and will have a majority of twenty on joint ballot. Two Republican congressmen were elected. The expansion sentiment is very strong in Oregon. In fact, the expansion sentiment is popular all over the country west. Whatever opposition there is to expansion is found in the extreme east.—(Denver Tribune.

Democrats throughout the country will get but little consolation out of the returns from Oregon. The contest in that state was drawn on purely national lines and the Republicans made a clean sweep. Oregon is simply the casting shadow of California, Colorado, the two Dakotas and Kansas. There is too much prosperity in this country just at present for Democrats to even look as though they would like to win.—(Olney Herald.

WITH THE REPUBLICANS.

The Republican national convention should disregard precedents and for once recognize the real west by giving it the candidate for the vice-presidency. This matter of being afraid to cross the Mississippi river is getting out of date. While the western states, especially those on the coast, are realizing the fruits of expansion under Republican administration, it may be considered an opportune time to extend them this courtesy, and in so doing the convention would make no mistake in nominating Hon. E. O. Wolcott.—(Cameron Golden Crescent.

Senator Penrose, of Pennsylvania, is renewing the expression of his choice of Senator Wolcott of Colorado, for the Republican candidate for vice president. Senator Wolcott appears to have definitely settled that point by declining to be considered as a candidate, but there will doubtless be many delegates in the national convention willing to endorse the Pennsylvania senator's choice.—(Colorado Statesman.

The advocates of free silver will be as scarce as buffaloes in Kansas after another year of prosperity, and we have every reason to believe that such conditions are in store for us. It is gradually dawning on the Democratic platform makers that a shell tipped with present prosperity is able to pierce the heaviest piece of silverized armor plate ever forged in the furnace of adversity.—(La Junta Tribune.

One cannot help admiring the hopefulness, though the wonders at the foolishness, of those Democrats who expect the ghosts of "imperialism" and "trusts" to scare more voters than the real monsters of flat money, panics and hard times, which always break loose when Democratic keepers are set to watch.—(Pueblo Mail.

Three years ago the Democrats wept over the ruinously low prices of everything, which could not possibly improve without free silver, and roared in advance about the issue of more bonds to supply the deficit in the treasury that was sure to exist at the end of each year. Now [illegible] and the complaint of high prices which amounts to robbery and the government is denounced for piling up a useless surplus in the treasury.—(Boulder News.

Colorado favors expansion—industrial, commercial, social, educational and territorial. Hence, Colorado will go Republican this year.—(Fort Collins Courier.

PROGRESS AND IMPROVEMENT.

The state of Colorado was never in a more prosperous condition than it is today. Everyone who desires to work may be employed at fair wages. The prospects of a good crop are flattering. Stockmen are happy because of a good market at top prices. More men are employed in the mines than ever before in the history of the state. Colorado is certainly favored above every other state in the union on account of its varied resources. Let us discourage calamity howling and take advantage of the reign of prosperity to better our condition in life.—(Denver Call.

As a field for judicious investments the Crystal river valley cannot be beat in any country. With its numerous valuable commodities, such as coal, mineral, marble and slate, together with the fact that every year things are looking brighter and that twenty miles of railroad is in operation, we don't think that anywhere in this state can be found a better place for the safe investment of capital than right here. If you have any money to place in mining, marble or slate enterprises, come in and look around yourself. All we ask is a fair and unprejudiced investigation of the resources of this portion of the western slope.—(Marble Times.

A broad gauge outlet for the district in Colorado south and west of the main range is being planned by Colorado and New Mexico capitalists. A railroad tributary to the Denver & Rio Grande at Durango, to run south to Albuquerque, is now under consideration, and the men at the head of it are already in the east making arrangements for placing the bonds. Connecting railroads have been consulted, and everything seems to point to the immediate construction of the new line.—(Ca-Be-Ad.

[illegible] source of revenue for many ranchmen. There is plenty of good money in raising alfalfa and farmers are finding this out more and more each year.—(Grand Junction Sentinel.

J. W. Conyers, one of the oldest settlers of this section of country and who now owns a fine farm on the reservation, says that he has never seen a better prospect for good crops than exists at the present time. Alfalfa, wheat, corn and oats are all looking fine. If the farmers and stockmen are prosperous the merchants and all other classes must enjoy the same conditions, hence good times during the next year are assured.—(Julesburg Grit-Advocate.

Larimer county leads all of her sister counties in the production of live stock, fat lambs, agricultural products, hardy fruits, dairying, building and paving stone, and in all the elements which help to make people prosperous and contented.—(Fort Collins Courier.

GENERAL COMMENT.

In the fight for the senatorship in Colorado, the people should not overlook the candidates to be selected for the legislature. This senatorial bowwow is calculated solely to attract attention and then run a lot of purchasable shysters into the state house next winter. The last fusion aggregation was a disgrace to the state and accomplished nothing hardly of benefit to the people. Colorado's finances are in bad shape and the state is just recovering from the evil effects of Waltersism, so it is important that the next legislature be made up of honest and conscientious men—men who will look after the interests of the taxpayers. Look out for the legislature; the senatorship contest will take care of itself.—(Marble Times.

Most everbody is familiar with the long-winged graceful insect known as "snake-doctor" or snake feeder." There are many species of it. Another name for it is "dragon fly." Logan county needs about 100,000,000 of them right now for their share of food from the time they hatch from the egg until they die as mosquitoes. Their larvae eat the mosquito larvae and when both become perfect insects and inhabit the air instead of the water they become veritable mosquito hawks. They are, on this account, very great friends of man and ought to be treated as such.—(Sterling News.

A Methodist clergyman at Strausburg, Pa., prayed for a brewery being erected in that town to be struck with lightening. The prayer was answered within a few days, or rather the brewery was destroyed by lightning, and the owners have sued the preacher for damages. It will likely be a little difficult to connect the preacher as the cause of the lightning.—(Monte Vista Reporter.

The Reporter is now not the only paper refusing to call a "closing" of a school "commencement." The Longmont Ledger has seen the idiocy of the plan—and has quit. Might better call a death a birth—or a sunset a sunrise. This paper calls things by correct titles. The "commencement" of the Loveland schools will probably be the first week in September next.—(Loveland Reporter.

In case of foreign war, the capitol at Washington is so situated that it might be wiped out in a single night through shells thrown into it by long-range guns on warships of enemies. The capitol ought to be removed to St. Louis or Kansas City. What would be better still would be to remove it to Denver, beyond the reach of the malarial influences of the Potomac, Wall street and London. In this climate the fathers might breed statesmen. All sorts of things are statesmen in this altitude, and one has only to look about to verify this proposition.—(George's Weekly.

DENVER Business Property FOR SALE

To parties thinking of investing in Denver property, either for income or speculation, I can make it to their advantage to call on me or come and see me. I have some of the best corners on Seventh, Eighth, Seventeenth and Eighteenth streets. Improved corners, with desirable tenants, with long leases, that are paying 6 to 7 per cent net on cost. I can sell the property for less money than any other party. Also unimproved corners that can be improved and rented readily to realize 6 and 7 per cent net. I handle all kinds of real estate and will be glad to show it to prospective purchasers.

FIRST NATIONAL BANK BLOCK

George Bernard Buys Pretty Trimble Home

The activity in real estate circles which is felt at present was again manifested yesterday Another of the choice residence properties of the city changed hands and the deal is one of the most important that has been made in a long time in that it reaffirms the allegiance to Colorado Springs of one of her foremost business men Mr George Bernard

Yesterdays big transaction was the sale from Mrs George W Trimble to Mr George Bernard of Mrs Trimble's handsome home which stands at the intersection of Cheyenne avenue with Weber and Boulder streets The property was bought by Mrs Trimble a couple of years ago from H H Seldomridge

The home was erected several years ago by Mr J P Seldomridge at a cost of almost $60 000 Each room is finished in a different kind of woods and the furnishings which were made expressly for the finishing in the respective rooms represent an expenditure of fully $10 000 in addition to the cost of the house

The site on which the house stands is one of the most attractive that could possibly be chosen in Colorado Springs being situated as it is in close proximity to the North park and the high school It will always be a desirable location The house faces the east where the broad avenue together with the pretty view out Last Boulder street and in both directions along Weber will always present a scene of interest and restfulness Across the street stands the private new church of the Cumberland Presbyterians and only a block distant is the edifice of the English Lutherans which will some day be replaced by a large and handsome structure

The site of this house is 150 feet on Weber street by 190 on Boulder The place has always been kept up in first class manner and is in perfect condition

Mr Bernard the purchaser is the president of the famous Elkton Consolidated Mining and Milling company one of the very foremost of the many Cripple Creek bonanzas Mr Bernard formerly lived at the corner of Willamette and Tejon where he had erected a handsome home which he sold recently to Mr J A Sill Since that time Mr Bernard has been residing at [illegible] he has been negotiating for some time for the purchase of Mrs Trimble's home As a matter of fact he had his eye on this property when he disposed of his Tejon street place

Mrs Trimble has not made public the consideration which is understood however that Mr Bernard has every reason to feel glad over his bargain the place at the price for which it changed hands

Mrs Trimble's plans are not definitely settled but she will probably go to Broadmoor hotel for the summer

Sioux City Man for High School Principal

The Colorado Springs school board held its regular meeting last night at the high school building and many important matters were taken up Mr W H Turnbull of Sioux City Ia had been elected to the position of principal of the high school of Colorado Springs Mr Turnbull is a man about [illegible] years of age and comes to Colorado Springs with the best of recommendations He has been in the city since Monday and in the meantime visited the school formally

Mr Turnbull expects to remain in Colorado Springs for about a week familiarizing himself with conditions here after which he is to assume charge He will then leave for the east to spend the summer and will return in time to take hold of the work in the fall

A good many people have been asking whether the man who was last night elected to the principalship was in any way related to the late George B Turnbull The coincidence in names is a rather singular one but the men were in no way related

Two Bad Accidents Occur Simultaneously

One of the most singular coincidents that has been known to occur in the vicinity of Colorado Springs for a long time took place yesterday

There were two bad accidents exactly similar in character and occurring at almost identically the same hour, on the new Cripple Creek railroad grade Both were on work in charge of John S Dean a sub contractor under Orman & Crook

At a few minutes after 1 o'clock in the afternoon a carriage drove up to the office of Dr J L White It brought John Munson a man who had been sprinkling powder in a hole preparing for a blast This was at 11 o'clock in the morning and at camp No 4 Dr White was endeavoring to get Munson fixed in a more comfortable condition before taking him to the hospital when another light wagon drove up to the door This time it was Charles Brown and a Greek whose name could not be understood by anybody to whom it was told Both these men had been hurt by the explosion of powder which they were putting into a hole preparing to blast They also had been hurt at 11 o'clock in the morning, but at camp No 1 about three miles distant from the scene of the accident to Munson

All three men were taken to St Francis hospital where their wounds were dressed as well as possible It is believed that the injuries of the men will not prove so serious as was at first feared Munson will probably lose the sight of one eye

Boston Banker Thinks Cripple Is a Wonder

Robert M Pierce another of those Boston bankers of whom so many visit Colorado Springs is perhaps more enthused over the future of Cripple Creek mining and the city of Colorado Springs than any of his stripe who have been here recently

I have just completed an inspection of the Cripple Creek district he said to the Gazette last night and I am on my way to the east My mission in the west was to look into the mining industry which interests me very much and is becoming an important factor in eastern financial circles After visiting Montana Utah California and other western states looking through the mining districts thoroughly I have concluded that the safest mining field in the world is Cripple Creek Financiers of the east have been brought to realize that they must come west to look for the best paying propositions Many a man has come to us with a mine whose nature to float and some of them very good ones but the capital that has been produced by the Cripple Creek mines is going back into the ground under the supervision of Colorado men at such a rate as to keep eastern capital here for a let us propositions The confidence shown by the millionaires of Colorado Springs and the railroad companies in the Cripple Creek district is bound to bring an influx of capital from the east that will surpass anything of the kind ever recorded

In a Cripple Creek mine the investor has a proposition that is safe as most surface business enterprises The district being so convenient of inspection affords every opportunity to personally investigate its resources which seem boundless And find that the oldest miners do not know how extensive it is The Santa Rita mine opened a rich vein a short time ago fully three quarters of a mile from the contact line of porphyry and granite which was hitherto supposed to be the outside of the district It is a permanent vein and other properties on the outskirts are showing remarkable developments Its extent is indeterminate and the values are without parallel in the world In South African mines and now have interests on the Hootalinqua river in Alaska but I have never found a field as inviting as substantial and so full of rich rock as Cripple Creek

Colorado Springs has in that camp a resource that will keep her growing at the present rapid rate for generations to come and with such a certain future offers inducements for real estate investors that few cities in the country can duplicate

Also

Buttonhole Interviews

Mr Moreland of the Manitou Mineral Water company is spending in Manitou in making many important improvements in the bath house A fine new toboggan is being put in and a new floor of tight and thoroughly constructed and will be in first class condition for the season We have decided definitely which the plunge will be moved for that will be settled by the people themselves As soon as they will guarantee us their patronage the bath house will be put up for them

Victor S Wilson editor of the Rosedale Journal at Rosedale Oklahoma territory called yesterday

Mr Wilson is one of the most enterprising and energetic newspaper men in the southern part of the state His paper is young being in a young town but is so cordially conducted as to gain it both mechanically and from a literary standpoint

Rosedale is the center of the Greenback mining district said Mr Wilson and it is one of the most promising fields for prospectors that is now available A good many men who have gone there from Cripple Creek pronounce the Greenback district the richest spot of earth in the state of Colorado Many properties are in operation and results are extremely gratifying

Dr W A Bell is president of the Pinacleia Estate company which is taking the lead in the development of the section of the state in which Rosedale is situated

One thing that Rosedale still lacks is a preacher The first preacher who strikes town if he will call at the Journal office will be presented with a year's subscription free We will also give him some pointers on the worst sinners in the district and will show him just where to begin effective work [illegible] has a premium has to be offered at every meeting But the bars are up against the Salvation Army

Mr Wilson and the Journal are staunch friends of the Republican party and the outlook for Republicanism in that section is reported as excellent

The many friends of Mr R W Tansill of Lakeside N M will be pleased to know that he and Mrs Tansill will probably spend some time here this summer He writes to a friend in the following strain I read every day and scarcely a edition of our little paper goes out (Carlsbad Argus) in which we do not copy from the same which shows our appreciation of it In fact under the new management it is showing ability and enterprise that is truly wonderful and let me say right here that I believe it is doing more for the upbuilding of Colorado Springs than is realized The fact of the matter is after reading the same, it is almost impossible for me to resist the temptation of returning at once and sharing in the good things that are being distributed I am in hopes of being able to close up certain business here within the next few months possibly after which I am intending to go Colorado Springs for a while

I wish there was some way of convincing our women that shopping in Colorado Springs is as convenient satisfactory and reasonable as in Denver [illegible] Our stores here carry complete lines of goods [illegible] demands the best and most [illegible] women who go to Denver to shop are lured there by designing dealers who send them circulars engraved invitations and other advertising matter the night the only thing it is farm personally If the ladies of Colorado Springs will take a [illegible] through our local stocks they will find that shopping in Denver is just as expensive as here barring the expense of the trip

The sale of our directories has been much larger than we anticipated remarked J M Bolton of the Out West company yesterday The demand has been much larger than it was two years ago I can not account for it save in the fact that Colorado Springs has several thousand more business men now than at that time We have received letters from numerous leading business houses commending the accuracy and completeness of the edition

PERSONAL MENTION.

R L Nellis of Denver is at the Elk

G B Lamar of Denver is at the Alamo

Mr A May returned on Sunday morning from a few weeks visit and visit in the east Accompanying him is his little daughter Carolyn who returns from school at Waterman hall Sycamore Ill where she has been for the past year Miss Ruby Marshall of Chicago will visit for the summer her cousin Carolyn May and returned to Colorado Springs with her

GILMORE-HILLHOUSE

A wedding of more than ordinary interest to the young people of Colorado Springs occurred at 8 o'clock last evening, When Miss Jennie D Hillhouse and Mr N Lynn Gilmore were united in marriage at the home of the bride's parents Mr and Mrs W H H Hillhouse No 14 East Costilla street The ceremony was performed by Dr W H H Powle in the presence only of the immediate families of the contracting parties

The bride is the eldest daughter of Mr Robert Hillhouse of this city and during her long residence here has become greatly esteemed among a large circle of friends and acquaintances Mr Gilmore has been a resident of this city for years and is quite well and favorably known through his long time connection with the firm of St John Bros and his membership in leading fraternal societies

The young couple were the recipients of many handsome and valuable presents They will go to housekeeping at once in their newly furnished home at No 30 South Wahsatch avenue where they will be at home to their friends after July 1st.

WILL GO TO THE DISTRICT CONVENTION

[illegible] of the Central District Christian Endeavor Union, which will begin on Friday evening June 15th at Cripple Creek, will be attended by [illegible] of the district Miss Bertha Allen of the Epworth League of Christian Endeavor of the First Methodist church Miss Brinson of the United Presbyterian church Mr Ray Dickinson president of the First Congregational C E of the city Mr H L Olmstead of the First Presbyterian [illegible] Mr C Bray of the First Baptist church [illegible]

A number are planning to go by stage to the convention having Colorado Springs at 7 or 8 o'clock on Friday morning Those going by train over the Midland will leave at 11 a m Friday

W F Snyder and N L Denney have taken the house formerly known as the Cunningham 326 East Huerfano street It will be fitted up as a boarding house and will be known as the Kenilworth Inn The house has been thoroughly renovated during the past week and been newly furnished throughout Persons wishing first class private board will do well to see these people before locating Rates $2 per day single meals 25 cents

June 13 and 14.

PROGRESS OF SUIT AGAINST D. & R. G.

When Judge Rucker ordered an adjournment in division [illegible] of the district court yesterday afternoon he indicated that he had the attorneys in the case of Grisses vs the Denver and Rio Grande railway [illegible] that they would make much better progress if they familiarized themselves more thoroughly with the points in the controversy

It is likely that the proceedings will be the beginning of testimony Mr [illegible] objected to the stand all of the direct examination will probably last until noon today Thus far the plaintiff still insists that the wrongful taking of the lumber lost as the result of the land [illegible] years ago [illegible] yesterday morning was occupied with motions of minor importance and arguments

GOT DECREES AND WENT AWAY HAPPY

Two unhappy husbands who secured their decrees in Pueblo were freed by the county court yesterday afternoon from the matrimonial ties that galled each man alleging that his wife had been cruel and prone to threats of abandonment

Harry H Allen secured a decree of divorce from Clara Allen upon a complaint that charged her with cruelty in general terms and specifically set forth that on several occasions she threatened to desert him They were married in Pueblo in 1899

Leo Livezey took a wife in Pueblo in 1898 and was given a decree of divorce yesterday on the same grounds as those alleged by Allen Mr Livezey set up that his wife threatened repeatedly to leave her husband wished he would desert and never return and was otherwise cruel in her treatment according to his statements

IN JUSTICE COURTS

In Justice Ruby's court yesterday afternoon the case of the People vs Whitaker was tried The defendant was found guilty to the next term of the district court and his bond was fixed at $500 The trial took up a greater part of the afternoon and proved quite sensational The defendant was held for making serious threats on the life of his wife and on the witness stand he testified that he was guilty of indecent conduct

The case of Gilmore vs Beck was brought up and continued [illegible]

The case of Williams vs Williams was continued until June 20

The case of Bell & Co vs C D Sell has was brought up for trial but it was continued on motion of the defendant

In Justice Wing's court yesterday the case of C W Collins vs [illegible] Hilliard was dismissed on motion of the plaintiff The case was settled before the trial

The case of Kellner vs De Lawn in the court of Justice Wing was continued until this afternoon at 2 o'clock.

LAWN SOCIAL POSTPONED

Dr W J Mckee of this city received a message from Tipton Ind announcing the death in that city of his sister, Mrs George D Hillis

UNDERGROUND IN RED BIRD

What An Inspection of the Workings of the Property Disclosed--Two Claims Sold.

Special to the Gazette:

Cripple Creek, June 12.—If there be ore in paying quantities below the second level of the Red Bird mine of the National T. & L. company it is neither being mined nor in evidence.

So many varying reports have appeared about a big strike on this property that your correspondent, having first obtained permission, visited the underground workings this afternoon and after climbing through the stopes and carefully examining every drift and cross-cut in the mine, from the second to the fourth or bottom level, has no hesitation in stating that there is no showing in any part of the mine to warrant the report of a strike.

From the stope in the northeast drift of the second level the National company mined and shipped mineral to the value of $14,000. Cross-cuts and drifts which were subsequently driven under and beyond this point in the two levels below failed to disclose ore in paying quantities although the main vein was cut and numerous cross leads were discovered. In the second level the present lessees continued work in the stope where the National management stopped and at this point a cross lead cut the values. It would now appear that this intrusion carried the values with it, consequently a nice bunch of ore has been disclosed. However, this ore is not found at a point 15 feet below the level for an upraise from the third to the second was put through at this very point. Neither does it extend upward beyond the first level. Today the miners underground were found cross-cutting in the third level while the supposed big ore bodies in the second level stope were not being touched. In fact the ore streak at this point is at its best confined, and not even by a stretch of the imagination can it be termed a prominent ore body or its discovery an important strike. Future developments may make the Red Bird a mine; today it cannot be classed as more than a promising prospect.

Two Claims Sold.

J. F. Peck of Denver purchased today the Golden Bell and Happy New Year lodes situated south of Victor from H. H. Morgan et al. The considerations were $2,500.

The new machinery which has been placed on the Herrington lease on Block 1 of the Mountain Beauty will be started up in the morning and cross-cutting will be resumed in expectation of opening up the vein which has been mined to such advantage on the Muckin lease on the Orpha May, the adjoining property. The present depth of the shaft is 100 feet.

The McKinley Mining company holding a bond and lease on the Wideawake, is arranging to place machinery on that Raven Hill claim.

WILL BE BROUGHT IMMEDIATELY

Suit to Annul the Hull City Placer Patent Will Be Brought at Once --Wilson Creek People Ask for a Receiver for the Independence.

The case of the Wilson Creek Consolidated Mining company against the Hull City placer will be brought immediately in the United States district court in Denver. Secretary of the Interior Hitchcock is now preparing a written opinion in which he will recommend the attorney general of the United States to bring the case before Judge Hallett's court in Denver. He gave an oral opinion Monday afternoon, as announced in the Gazette yesterday morning. It is of the opinion that the arguments which the attorneys of the Wilson Creek company made before him clearly establish a case of fraud in securing the Hull City placer patent.

There was considerable confusion in the city yesterday over the decision of the secretary, some alleging that he had merely granted a petition that the petition to instruct the attorney general to re-open the case might be presented to him; but it was quite clear, in the face of different telegrams from Washington that the Gazette's account was perfectly and entirely correct.

The offices of the Independence T. & M. company in this city have been notified that suit will be brought immediately and that no time is to be lost in making ready for the fight. W. S. Montgomery left Washington yesterday evening for this city.

Word was also received from Denver yesterday that the Wilson Creek company intends to petition Judge Hallett to appoint a receiver for the Independence T. & M. company to serve until a settlement of the litigation is arrived at.

The suit, however, which will be brought in Denver will not be the Wilson Creek company vs. the Independence T. & M. company, but the government of the United States vs. the Independence T. & M. company, brought to annul the patent which the latter company holds for the Hull City placer. If the Independence company had only a receiver's receipt for the property, the case could be heard in a land office, but as it involves a United States patent action to annul it must be brought by the United States. Accordingly it will be Attorney General Griggs, who will open the suit, according to the recommendation of Secretary of the Interior Hitchcock.

TREASURY STOCK SOLD

Through the Firm of Jno. W. Proudfit & Co.--The Vindicator Company Has Sold a Block of Treasury Stock at $1.50 per Share.

Before the recent slump in the market Vindicator was selling at places from $1.75 to $1.90 but after the last dividend was declared the market slump lost the purchase of the Gillett mill by the Vindicator company would necessitate the passing of dividends caused the stock to fall off somewhat.

Now, however, this doubt has been removed by the placing of a considerable block of the treasury stock in New York at $1.50 per share.

This gives the company ample funds for meeting the payments on the mill, and leaves the treasury surplus intact for the purpose of paying dividends.

The stock was placed through the firm of John W. Proudfit & Co. of this city with a group of men in New York who will hold the stock for an investment. As the Vindicator is now paying 5 cents a quarter in dividends and this rate is now assured for the future, the investment will not those who have taken the treasury stock about 15 per cent per annum. They express themselves as well pleased with their bargain.

The Vindicator company has now, in addition to a large cash surplus, about 400 shares of stock in the treasury.

A.-J. STOCKHOLDERS MEET

The annual meeting of the Argentum-Juniata Mining company was held yesterday in Council Bluffs, Iowa. It has not yet been learned how many shares of the stock were represented, but the office of the company in this city was notified that the old board of directors had been elected, and that this board, meeting after the stockholders had adjourned, selected the same officers who served the company last year, namely: J. A. Hayes, president; C. B. Palmer, vice president; and Irving Bonbright, secretary and treasurer. Those with H. T. Rogers, E. T. Jeffrys, E. W. Giddings and K. R. Babbitt make up the directorate of the company.

The reports of the fiscal year have been prepared and will be mailed to all stockholders the first of next month. The mine is in a good condition and it is expected that the next year will see it become a very large producer, and as it has recently built its own mill in connection with the Mollie Gibson people, its ore can be treated at the lowest possible cost.

The report states that in the seventh level of the mine there is an ore body in two stopes for a distance of 200 feet which is 25 feet in thickness and which averages $13 to the ton, and between the two stopes there is mill ore showing for a distance of 200 feet. At the tenth level in the mine an ore body 22 feet wide was opened up and assays indicated values of 35 ounces in silver and about four ounces in lead to the ton; but this level was completely submerged by water which for a while was somewhat kept down by the pumps, but as the cost of keeping the pumps running mounted up, they were finally stopped. There remains $28,300 in the treasury.

BOSTON BROKERS TALK BUSINESS

Mr. Morrill Smith, of Morrill Smith & Co., a prominent brokerage house of Boston, Mass., was in the city yesterday. Mr. Smith has been instrumental in directing a good deal of money into Cripple Creek and other Colorado mining stocks, but regrets, at the same time, that there is not more general interest in mining investments, among eastern operators. He states that much might be done were the brokers of Colorado not so inclined to try and center everything in Colorado. By so doing, he says, the list of traders is limited and confined to those who are willing to do business with people 2,000 miles away. Were the brokers in the east allowed to become more interested in the mining business and invited to share in the profits that might accrue then there would be many who would promote the mining and mining stock business in the east who will not undertake to do so, now as they cannot divide commissions with the brokers here, cannot charge eastern clients more than they can get their business done for on this market and without one or the other they are not in a position to make expenses let alone profits. Mr. Smith is very much in favor of the idea of the Colorado Springs Mining Stock association allowing associate memberships for eastern brokerage houses and believes that it would result in a great increase in mining stock business in the east as then the brokers would be entitled to a share in the profits of any business they brought which would be sufficient encouragement for them to promote that which they already believe in most thoroughly.

Mr. Smith was accompanied by Mr. J. M. Harriman, also of Boston. They are both largely interested in the company operating the Maggie claim, located south of Stratton's Independence. In company with Mr. Thatcher, the superintendent, they will visit the property in a few days and take a general look over the great Cripple Creek district.

INTERNATIONAL MINING CONGRESS

The interest is growing in the International Mining congress which is to be held in Milwaukee from June 19th to 23d inclusive. A circular has just been issued by the local executive committee giving information in regard to hotel accommodations, etc. and there is every evidence that the attendance is going to be very large and the meeting a most important one.

This is the first time in the history of the United States that all mining interests have been brought together in convention for the purpose of discussing and determining ways and means for the promotion and betterment of the mining business. Great interest is being taken in the conference and thousands of visitors as well as delegates have already notified the local committee that they will attend. As it is the intention to form a permanent International Mining association every delegate appointed is urged to be present.

The committee on mineral exhibits have assurances of a very extensive collection of the mineral resources of this country and of Canada.

The programme has now been prepared, and gives an interesting forecast of what the big convention will be. Not only will the delegates listen to papers on questions of interest to mining men, but excursions will be taken in trolley cars and boats viewing the resorts and objects of attraction near Milwaukee, not excluding the great breweries. Opportunity is also going to be given to those who wish it to remain to the great Milwaukee carnival, which takes place about 10 days after the congress adjourns, and railway rates will be made so that the delegates and visitors can take in some of the beautiful lake resorts of Wisconsin.

The sessions of the congress will be held in the large Exposition building, and among the papers which will be read at the different meetings are those on the Determination of Mining Public Survey of Mineral Lands, the Lead and Zinc Industry in Missouri, Why Women should Interest Themselves in Mining, read by Mrs. E. F. Attwood of Empire Colo., Mining as an Investment, Copper Mining in Northern Wisconsin, and many others.

Every farmer knows that to kill weeds he must go to the roots. To cut the weed off on the surface, means that the weed is still left to grow. It's just that way with boils, ulcers, eruptions, pimples and similar diseases of the flesh. To cure them you must go to the roots, down into the blood. Mere surface treatment never gets rid of the disease. It will come back at the first opportunity.

It is to its wonderful power in the purification of the blood that Doctor Pierce's Golden Medical Discovery owes many of its triumphs of healing. It cleanses the blood thoroughly, eliminating all the refuse matter and clears out the waste and poisonous particles which clog the body and so foul the flesh. It eradicates from the blood the conditions which make disease possible. The result is that diseases die out like fires that are untied.

There is no medicine for the blood which is "just as good" as "Golden Medical Discovery." Accept no substitute.

"I feel it my duty to write to you of the wonderful curative powers of your 'Golden Medical Discovery,'" writes Geo. S. Henderson, Esq., of Benaud, Lee Co., Florida. "I had a bad bruise on my right ear, and my blood was badly out of order. I tried local doctors but with no good results. Finally, I wrote you the particulars in my case, and you advised your 'Golden Medical Discovery,' which I began to take. From the first bottle I began to feel better, and when I had taken eight bottles the sore was healed up. I wish you success."

Free. On receipt of 21 one-cent stamps to pay expense of mailing *only*, Doctor Pierce's Common Sense Medical Adviser, 1008 pages, paper-bound, will be sent free. For cloth binding send 31 stamps to Dr. R. V. Pierce, Buffalo, N. Y.

MINING NOTES AROUND TOWN

Independence T. and M. and Wilson Creek stock played a see-saw game on 'change yesterday, the former going down and the latter up. When Independence stock was called there was a decided sensation and the foyer of the exchange was packed with interested spectators, and the gallery as well. The first sale was made at 55, being a drop of over 5 cents below the closing price on Monday, and the stock declined quite rapidly to 50, at which point it rallied and reached 52 again, probably because of the demand created by those who were short on the stock and were willing to cover at a fair profit. But in the afternoon the stock went to 50, and there seemed to be plenty for sale at that price at the close. Wilson Creek is by no means such a trader as Independence T. and M., and is only called up on the pit call. Only a few thousand shares changed hands, but during that business the price advanced 10 cents, which is nearly 10 cents above the price at which the stock sold on Monday.

COMMONWEALTH COMPANY LEASES ITS HOME FRACTION.

The Commonwealth Gold Mining company has granted a lease on its Home fraction to J. H. Holmes, which will run from the 1st of June to August 1, 1902. The lease calls for 25 per cent straight royalties and stipulates for sinking a shaft, beginning July 1. The shaft on the property is now down to a depth of 150 feet with a drift 110 feet long at the depth of 125 feet and one 150 feet long at the 150 foot level. The latter encountered a wide phonolite dyke, but as the lease at that time only included the Home fraction, and as the dyke lay just along the boundary, the lessee waited until he had got his lease renewed to include lots 14 to 20, in block 6, and lots 39 and 40, in block 11, of the Arequa townsite, also owned by the Commonwealth company. The lessee will go right to work exploring this dyke. He has had good assays and expects to open up an ore shoot within a short time.

NO SMELTING ORE SHIPPED FROM INGHAM.

Returns have been received from a shipment sent out from the Raven syndicate in Ingham. This consignment consisted of two cars of ore which returned an average value of $20.29 in gold to the ton. The first shipment made from this lease consisted of five cars, which averaged $26.30 to the ton. The lessees say they have shipped no ore of a smelting grade.

LEASE GRANTED ON THE EUREKA CLAIM.

The Reward Gold Mining company, a company recently organized in Denver, has just granted a lease on the south half of the Eureka claim, situated north of the Cameron townsite and adjoining the Mulligan claim. The lease is granted to Lewis and William Mueller of Cripple Creek and runs for 18 months. The Eureka claim consists of eight acres, the formation being of granite and porphyry, and there are two shafts on the claim, each down to the depth of 50 feet. A vein is disclosed in both shafts, the ore from which averages from $15 to $20.

RETURNS RECEIVED FROM ELIZABETH COOPER SHIPMENT

Smith & Co., leasing on the Elizabeth Cooper, of the Nugget company, have just sent out a shipment of 40 tons which, it is estimated, will return values of about three ounces in gold to the ton. The lessees have been installing new machinery and are just now getting things into shape to maintain a steady output. The vein has been drifted on for some distance in both directions and the ore shoot is found to have all the appearances of a permanent one.

PROVE ALL THINGS.

This Old Command is Easy to Fulfill in Colorado Springs.

To win a wager, an English marquis stood on London bridge and offered for an hour British sovereigns ($5) for five shillings ($1.25). He could not find a customer. There are several good reasons why the ordinary mortal could not be induced to buy, but no reason can be given why Colorado Springs people will not accept the following convincing proof about Doan's Kidney Pills. Read this:

Mr. C. C. Chamberlain, carpenter, of 14 North Oak street, says: "Derangement of the stomach accompanied with indigestion and constipation affected my kidneys, causing backache and a weakness across the loins. When the attacks were most acute considerable bloating of the body existed and it struck me after reading an account in our Colorado Springs papers about Doan's Kidney Pills that they might help me if I took a course of the treatment. I procured a box at Smith-Wilson Co.'s drug store and from the results obtained from its use I have no hesitation in endorsing the claims made for that preparation."

Doan's Kidney Pills for sale by all dealers, price 50 cents. Mailed by Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no substitute

Independence I. & M.

AND

Wilson Creek

SHARE AND SHARE ALIKE

OVER a year ago we gave this same advice, and time has proved the correctness of it. A decline in one will be accompanied by a corresponding rise in the other, thereby maintaining the balance, and making comparatively little change in the original cost price of both stocks.

WILSON CREEK will be a constant INSURANCE for Independence. At present quotations the cost of 1000 Shares of Wilson Creek and 1000 Shares of Independence will be considerably less than the value of 1000 of the stock which eventually comes out victorious in the pending litigation. We believe that the purchase of these two stocks, share and share alike, is about as near a "sure thing" as possible.

The combination mentioned above will, we feel sure, yield handsome profits and big dividends.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, June 12.—The market today on the Colorado Springs mining stock exchange was in a very good condition, notwithstanding the fact that there were some declines. It was thought beforehand that the slump which was sure to come in the stock of the Independence T. and M. company might make the whole market rather panicky, but as a matter of fact the weakness manifested itself only in that stock and seemed to have no effect upon the rest of the market.

Independence T. and M. was the feature of the day's trading, being the stock exciting greatest interest and the heaviest trading on both calls. Although it recovered to 52 in the morning after having declined very suddenly to 50, in the afternoon it went back to that price and there was more for sale at 50 at the close. It was thought by some that in the face of the report that the secretary of the interior had given no decision the stock might strengthen on the second call, but the report seemed to have no effect on the stock. On both calls together there were over 50,000 shares of Independence stock sold. After this Wilson Creek was or considerable interest. This stock is traded on the pit, and on the morning sold up to 23 and reached 25 on the afternoon call. Elkton maintains its splendid strength and went as high as $1.31½, closing at that price. Ingham sold at 20 and Lexington at 17½. National was by far the heaviest trader, 128,500 shares being changed hands, and the price advanced to 12⅝. Many consider that this stock is a splendid buy, in spite of the bear reports which are freely given out. It will be remembered that the Bob Lee strike was reported to be a fake when the stock was selling at and fractionally above 6; but this did not seem to cause a reaction by any means. Today, however, the stock sold down to 4⅞.

The sales for the day amounted to 577,404 shares exchanged, the cash value of which came to $124,774.25.

Within the Past Two Years

So many cases of consumption taking my treatment have returned to their homes, where they have been cured, or are getting well, that others are asking what my treatment is.

What It Is

It is a cure for all cases of Consumption in the first stage.

It is a cure for a larger per cent. of advanced cases than any other treatment yet discovered.

It is a radical cure. No one cured by it within the past 12 years has re-taken the disease.

It is a sensible treatment. Beginning its work in the healthy portions of the lung it gradually encroaches upon the diseased areas until all portions are made healthy.

It is a cure for tubercular throats when applied early.

It is taken in your own home and in any climate.

Consultation and examination free

What It Is Not

It is not a cure for all cases of Consumption.

It is not a cure for cases in the advanced stages, except they be of a catarrhal type.

It is not unpleasant to take, the most feeble ones using it with ease.

It is not a cure for all cases of tuburcular throats.

It is not in any way injurious. The most serious and delicate cases are improved, and if not cured are made comfortable and their lives prolonged.

It is not an expensive treatment, but comes within the reach of all.

Call on or address.

WEATHER FORECAST.

Washington, June 12.—Forecast for Colorado: Fair in western, showers in eastern portion Wednesday; Thursday fair, warmer in eastern portion; northeasterly winds.

Lovers of art see Ashby's window.

Trunks repaired. Wise, 14 Pike's Peak avenue.

H. T. O'Brien, 7 S. Cascade, trunks made and repaired. Old trunks taken.

The Colorado Springs Transfer Co.'s storage warehouse is the best in the city.

The Cog road had two full trains to the summit yesterday morning.

A building permit was granted yesterday to J. F. Hardy to erect a 5-room frame cottage on High street. The cost will be $1,800.

Regular meeting of Myrtle lodge No. 34, Knights of Pythias, this evening at 7 o'clock. Visiting Sir Knights are cordially invited. Work in first rank.

Charles Thurlow, executor of the estate of W. B. Perkins, was discharged yesterday having completed his duties to the satisfaction of the county court.

The Kenilworth Inn, 326 East Huerfano street, opens today under the management of Snyder and Denney. It was formerly known as the Gillingham.

John Monroe was found in a drunken state yesterday afternoon on South Tejon street in the most filthy condition. He was arrested by Officer Thomas and taken to police headquarters.

A man by the name of Jeremiah Diehl was arrested yesterday afternoon on Colorado avenue by Officer Gaines. He will answer in the police court this morning to a charge of drunkenness.

Information concerning the whereabouts of Theodore Stowe, late of Denver, Colo., is anxiously desired by relatives, as he has probably fallen heir to part of an eastern estate. Address P. O. box X, Pitkin, Colorado.

Cards are out announcing the wedding of Miss Mary Adelaide Howl to Mr. [illegible] which will occur on Wednesday evening, June 27th, at the home of the bride's parents on West Platte avenue.

The Colorado & Southern has added another regular daily train to run from this city to Pueblo. It will make its first trip on Sunday, June 17. It will leave this city at 11 a. m. and arrive in Pueblo at 12:10 p. m., leaving Pueblo at 5 p. m. it will arrive in this city at 6:20 p. m.

The ladies of the missionary society of the Second Presbyterian church will give a tea at the home of Mrs. Graves, 134 Washington avenue, on Wednesday of this week, at 3 o'clock. Mrs. Capp will speak on "The Slums of London." All ladies interested are cordially invited to be present.

The Thimble club of Mrs. Reade's district will meet with Mrs. R. B. Watson, 112½ Nevada street, Wednesday afternoon at 3 o'clock. This district includes all the women of the First Presbyterian church, who live between Dale and Cucharras streets, east of Weber. Every member is invited to come and help in the work.

Thursday Holbrook & Perkins will hold their first annual picnic for the boys. All boys who have purchased suits of them this spring and summer have received tickets. All are requested to come to the store Thursday morning at 10 o'clock, and ours will be in readiness to take them to Cheyenne canon, where there will be sports and entertainment for all. A lunch will also be served, so the boys need only bring themselves.

The following is from the Idaho Miner and the young man referred to was formerly a student at Colorado college and is well known here:

The Lord said: "It is not good to be alone" and only fellow townsman J. W. Kittredge, has been studying this text intently for a long time now, with the result that last Saturday he elevated for Victor, Colo., volunteering the information that upon his return he would be able to show that his study had not been for naught. On Wednesday he was married to Miss Lois Atkinson, one of the most amiable, talented and popular young ladies of Victor, who for the past three years has taught in the Victor schools. Mr. Kittredge is one of our most respected citizens and the Miner wishes to join his many friends in hearty congratulations, according to the happy couple a royal welcome upon their return from the honeymoon, which will occur next week. They expect to spend several days in Manitou and Denver.

Also

[illegible] will sell tickets at the one fare round trip to Missouri River, Chicago or St. Louis, or intermediate points at one fare for the round trip, plus $2.00. Call at city office, 16 North Tejon St.

The Sparkle of Life

is generated by Nervous Energy

You can't have good health and weak nerves at the same time. Your general health is good or bad, according to the condition of your nerves. No theory in this; it is simply founded upon the old law of cause and effect.

Nerve force is life, force and power to both body and brain.

Be convinced of the above facts by trying a box of Paino Tablets. The greatest nerve remedy of the age. They cure debility.

Olive Novelties

PIM-OLAS—The Spanish queen olive with pit removed and filled with pimientos, a sweet Spanish pepper, making a combination that is appetizing and nutritious.

BABY PIM-OLAS—Prepared the same way as the ordinary Pim-Olas except that the Manzanilla olive is used in place of the queen olive.

COCKTAIL OLIVES. These olives are especially selected for their flavor, and are pitted so as to remove the pit without destroying the shape or flavor of the fruit. These are fine for garnishing salads.

Burlington Route

TRIPS!

Our cars are no better in themselves—than the cars of other lines. It is what is INSIDE them that makes them more comfortable.

For instance: The seats in our reclining-chair cars are provided with linen head pieces—clean and cool. Our dining-cars have electric fans, and are gorgeously decorated with flowers. In every car is a thermometer, which the porter constantly consults in order to keep the temperature of his car as nearly uniform as possible.

By themselves, these things are trifles, but the sum total of them goes a long way toward making a trip over the Burlington a mighty enjoyable experience.

Burlington trains leave Denver 4:00 and 10:00 p. m. for Omaha, Kansas City, St. Louis and Chicago.

Tickets at Offices of Connecting Lines.

SPECIALS IN SUITS

That : Are : Truly : Exceptional Values.

Here are two lots of fashionable suits that haven't known this store more than two months. Our anticipations of a large business were knocked out by bad weather and a slow spring. Can't wait for them to move themselves. New ones are coming, so, to move them ourselves

Eighteen all-wool serge and cheviot suits, finished in true tailor fashion, *were* $12.50 and $13.50, *now* $7.50

Thirty covert, cheviot and homespun suits, well made and lined throughout, *were* $17.50, $18.00, $18.50 and $19.00, *now* $12.00

SUMMER FABRICS REDUCED.

These goods are new. They were made for this summer's wear. It seems a shame to let them go at these prices, but we're overstocked. Now to reduce them.

Our entire line of Irish Dimities, comprising the very latest conjurings that fashion has approved for us this season; *were* 25c a yard, *this week* 20c

Seven pieces of Satin Striped Ginghams, in blue, pink, black and white effects, the regular 45c kind; *now* 37½c

Plaid Skirting Crash that's its name. It's very popular, too, for summer skirts. The plaid effect catches the eye. *Was* 35c, *now* 15c

Satin Striped Challies, in all their daintiness and loveliness, are reduced, not over priced at 85c a yard, but to move them they go at 55c

GOLF SUITINGS.

Four pieces of Golf Suitings, in good colors, all wool, 58 inches wide and good sellers at $2.50 a yard, *now* $1.50

Eighteen pieces of Golf Suitings, 48 inches wide, with plain face and plaid back, former $1.25 kind, *now* 95c

Carpets Portiers Linoleums Lace Curtains Window Shades and Navajo Blankets

GIDDINGS GIDDINGS GIDDINGS

Anthracite $7 during June.

Don't be Unjust

and blame the maid for what's due to your own coal in winter. Where black diamonds are part coal and part something else, so much of the total don't feel that the fire dies out, and it late or cold, dinner results. Burn our Canon Nut—an Egg—for delicious and we are happy as one just remembered in his will by a rich relative.
